Introduction

The Comparison Document provides brief descriptions and estimates of fiscal effect for the provisions that make up the As Introduced version and subsequent versions of the biennial budget bill, H.B. 119. The document is arranged in alphabetical order by state agency. It also includes two nonagency items for which appropriations are made, Employee Benefits Fund (PAY) and Revenue Distribution Funds (RDF), as well as a Miscellaneous (MIS) section, under which Local Government and Tobacco Securitization provisions can be found as well as other provisions that do not fit well in any agency. A Table of Contents follows this Introduction. Two indices are located at the end of the document. The first index gives the page number of each particular item within the sections; the second index lists cross-references by agency and is new to the Comparison Document.

Generally within an agency's section, items that involve Revised Code changes come first, followed by items that involve uncodified (i.e., temporary) law provisions. The sections for the Department of Education, the Department of Job and Family Services, and the Department of Taxation are first arranged by general topic areas. If an item affects more than one agency, it is described under one of the affected agencies, rather than all of the agencies as in the past. However, the other agencies are listed in the cross-referencing index at the end of the document. This index lists, for each agency, all entries that affect the agency but are not included in that agency's section as well as the page number for these entries. A reader who is interested in all provisions affecting a certain agency should consult the cross-referencing index in addition to the agency's section.

Each particular item is also assigned a unique identification number. This number begins with the letters CD (the abbreviation for Comparison Document) and includes the agency's three-letter Central Accounting System code. For example, an item in the Department of Development section might have an identification number CD-510-DEV. A reader who wants to track an item across several versions of the Comparison Document may find the identification number useful.

Items affected by the Governor's vetoes are noted by either the words "Vetoed" or "Partially Vetoed" in the item's subject line. Within the item description, vetoed components are contained within bracketed text. The Comparison Document does not include appropriation amounts for the agencies. Please see the Legislative Service Commission's Budget in Detail spreadsheet for that information.

3 (CD-625-DAS) Transfer of OIT from DAS to OBM			
R.C. ***9.30, 125.01, 125.17, 125.18, Sections 515.03, 606.11, 606.18, 207.30.30***		**R.C.** ***9.30, 125.01, 125.011, 126.17, 126.18, Sections 285.55, 515.03, 605.11, 605.12, 605.17 605.18, 207.30.30***	
Transfers the OIT (and all its assets and liabilities, records, and funding) from DAS to the Office of Budget and Management on July 1, 2008. Retains OIT in DAS through FY 2008 to allow for the administrative reorganization entailed by the transfer.	No provision.	Same as the Executive.	No provision.
Makes the Office of Information Technology (OIT), rather than DAS, responsible for purchasing information technology supplies and services for all agencies.	No provision.	Same as the Executive.	No provision.
Makes the Chief Information Officer a position subject to appointment and removal by the Director of Budget and Management instead of the Governor.	No provision.	Same as the Executive.	No provision.
Specifies that the State Chief Information Officer is to supervise OIT, and that, beginning July 1, 2007, the Officer is to be subject to the Director of Budget and Management.	No provision.	Same as the Executive.	No provision.
Requires OIT, rather than DAS, to maintain the Ohio Business Gateway	No provision.	Same as the Executive.	No provision.
Codifies the multi-agency radio communication system (MARCS) and requires OIT to maintain and promote the system. Codifies and modifies the MARCS Steering Committee.	No provision.	Same as the Executive.	No provision.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
Codifies the IT Governance Fund to support the activities of OIT, its funding to be derived from those activities.	No provision, but the fund remains in uncodified law (Section 207.30.30).	Same as the Executive.	No provision, but the fund remains in uncodified law (Section 207.30.30).
Conforms previously enacted law (Section 235.30 of Am. Sub. H.B. 66 of the 126th General Assembly and Section 329.10 of Am. Sub. H.B. 699 of the 126th General Assembly) to reflect the transfer of OIT from DAS.	No provision.	Same as the Executive.	No provision.
Fiscal effect: Whether or not there are any costs or savings resulting from the transition of OIT would depend on staffing and other administrative decisions not yet made.		**Fiscal effect: Same as the Executive.**	

4 (CD-560-DAS) Elimination of Fidelity Bonding for Vehicle Liability Fund

Sections: ***606.05, 207.10.10***	**R.C.** ***9.901, 9.833, 9.90, 3311.19, 3313.12, 3313.202, 3313.33, 4117.03, 4117.08, Section 207.10.10***	**R.C.** ***9.833, 9.901***	**R.C.** ***9.833, 9.901, Section 130.05***
Continues to delay the implementation of the School Employees' Health Care Benefits System as enacted in Am. Sub. H.B. 66 of the 126th General Assembly, until the General Assembly confirms the implementation through subsequent legislation.	Replaces the Executive provision with a provision that repeals the delay language in Am. Sub. H.B. 66.	Same as the House.	Same as the House.
Specifies in uncodified law that the board be comprised of twelve members, six appointed by the Governor, three of whom are currently non-administrative school employees, and three each appointed by the President of the Senate and Speaker of the House of Representatives. Requires that at least one of the three members appointed by the President and Speaker be of the minority. (Under current law the board is comprised of nine members.)	Same as the Executive, but expands the membership of the Board from nine to twelve members in codified law, rather than uncodified law.	Same as the House.	Same as the House, but also staggers the terms of the Board members.
No provision.	Provides for continuation of the terms of the current and new members of the Board until December 31, 2010; provides for compensation for the members; requires the	Same as the House.	Same as the House.

	Board to meet at least nine times annually; and specifies the public character of the Board's records and meetings.		
Requires that the board, in consultation with the Governor, develop an implementation plan based on the January 31, 2007 report to the Governor and General Assembly.	Replaces the Executive provision with a provision that implements the School Employees Health Care Benefits System with the following changes:	Same as the House.	Same as the House.
No provision.	Eliminates the authority of the Board to develop, approve, or implement centralized health care plans that public schools districts or consortia would be required to use. Eliminates the requirement that districts pay premiums to the Board and the School Employee Health Care Fund for health care benefits coverage. Requires instead that the Board adopt "best practices" to which school health plans must adhere and adds other Board duties related to monitoring adherence to these best practices and the oversight of health care plans adopted by local school districts.	Same as the House, except also eliminates responsibilities such as approving health care plans, determining the feasibility of a consolidated system, developing recommendations for plan components, [***VETOED: requiring education and wellness programs as part of plans***], and developing and implementing programs for specific health benefits. [***VETOED: Specifies that the Board's best practices are prohibited from duplicating or conflicting with current health insurance regulations. Removes from the health care plans covered by this provision plans that only provide coverage for dental or vision services and group voluntary plans that provide only supplemental benefits.***]	Same as the Senate.
No provision.	[***VETOED: Eliminates the requirement that the Board (1) determine strategies used by existing medical plans to manage costs and (2) study the potential benefits of state or regional consortia offering plans***], but permits (instead of requires as under current law) the Board to contract with consultants to evaluate the strategies in (1) and study the benefits in (2).	Same as the House, [***VETOED: but removes from the consultants work the study of the benefits in (2). Also, modifies the consultants recommendations to include improving health care plans instead of improving districts' purchasing power for health care plans.***]	Same as the Senate.
No provision.	[***VETOED: Requires the Department of Insurance to evaluate the performance of the best practices adopted by the Board.***]	Same as the House.	Same as the House.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
No provision.	Authorizes the Board, in cases where a health plan sponsor is not adhering to best practices, to request the Attorney General to seek appropriate court orders to enforce compliance.	Permits the Board to adopt rules for the enforcement of best practices standards adopted by the Board	Same as the Senate.
No provision.	Requires the Department of Education to withhold 1% of all financial aid to a school district found not to be in compliance.	No provision.	No provision.
Requires that the Director of OBM, at any time during the biennium, if the Director of DAS certifies that there is sufficient reserve available in Fund 815, School Employees Health Care, transfer an amount equal to the total expenditures and obligations made from GRF appropriation item 100-403, Public School Employee Benefits from Fund 815 to the GRF.	No provision.	No provision.	No provision.
Requires GRF appropriation item 100-403, Public School Employee Benefits to be used by DAS to hire an executive director and necessary staff to provide support to the School Employee Health Care Board and the Public School Employee Health Insurance Program.	Same as the Executive, but requires that moneys appropriated go directly to the Board for the hiring of staff and other uses.	Same as the House.	Same as the House.
No provision.	No provision.	No provision.	Alters the composition of the Public Schools Health Care Advisory Committee (created under the Board), increases the duration of the terms of the Committee members, and requires the Committee, rather than the Board, to elect the Committee chairperson.
Fiscal effect: An appropriation of $1,425,000 in each fiscal year is provided to cover the costs to DAS of the Board's activities.	**Fiscal effect: Potential increase in Board costs because the members are compensated for their services and the minimum number of meeting dates is increased. An appropriation of**	**Fiscal effect: Same as the House, except those disctricts not in compliance will not lose state aid.**	**Fiscal effect: Same as the Senate.**

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
	$1,425,000 in each fiscal year is provided to cover the costs of the Board's activities. [*Likely increase in Department of Insurance costs for new responsibilities.***] Requiring the Board to adopt a set of best practice standards instead of implementing centralized health care plans has uncertain fiscal effects. It is possible that allowing school districts to find insurance plans from outside providers based on these best practices could result in lower cost insurance plans. But it is also possible that the best practice requirements may limit the number of plans available. Districts not in compliance will lose state aid.**

Section: ***213.20***	**Section:** ***213.20***	**Section:** ***213.20***	**Section:** ***213.20***
Establishes the amount used to determine whether a resident is eligible for payment and for determining the maximum monthly supplement amount per month the eligible resident will receive. The amounts are as follows: (1) $900 for a residential care facility; (2) $900 for an adult group home; (3) $800 for an adult foster home; (4) $800 for an adult family home; (5) $800 for an adult community home; (6) $800 for an adult residential facility; and (7) $600 for adult community mental health housing services. The bill specifies that the Departments of Aging and Job and Family Services shall reflect these amounts in any applicable rules.	Same as the Executive.	Same as the Executive, but increases by 3% the maximum monthly supplement amount for an eligible resident. The new amounts are as follows: (1) $927 for a residential care facility; (2) $927 for a adult group; (3) $824 for an adult foster home; (4) $824 for an adult family home; (5) $824 for an adult community alternative home; (6) $824 for an adult residential facility; and (7) $618 for an adult community mental health housing service.	Same as the Senate.
		Fiscal effect: The Department estimates this increase to cost $300,000 per fiscal year. However, the program is budgeted for 2,000 individuals and the caseload as of January 31, 2007, was 1,884 individuals. Since the program does not have 2,000 individuals enrolled, there is money available that could be used to pay for this increase before program participants would be impacted. The Department has stated that they could likely absorb this increase with current appropriations.	**Fiscal effect: Same as the Senate.**

Retains the building blocks methodology for determining the base cost formula amount, with the following changes and updates to the amounts prescribed for FY 2008 and FY 2009:	Same as the Executive, but makes the following changes:	Same as the House.	Same as the House.
(1) Prescribes that the presumed average base classroom teacher compensation is $56,754 for FY 2008 and $58,621 for FY 2009 (increased from $54,941 for FY 2007).	(1) Same as the Executive.	(1) Same as the Executive.	(1) Same as the Executive.
(2) Retains the presumed student-based classroom teacher ratio of 20:1 for all schools except Internet- or computer-based community schools (e-schools). Prescribes a ratio of 100:1 for e-schools.	(2) Same as the Executive, but continues to presume a 20:1 ratio for e-schools also.	(2) Same as the House.	(2) Same as the House.
(3) Establishes the other personnel support building block as $1,905 in FY 2008 and $1,962 in FY 2009 (increased from $1,850 for FY 2007).	(3) Same as the Executive.	(3) Same as the Executive.	(3) Same as the Executive.
(4) Provides 2% increases in the nonpersonnel support building block according to the projected GDP-deflator, resulting in $822 in FY 2008 and $839 in FY 2009 (increased from $806 for FY 2007).	(4) Same as the Executive.	(4) Same as the Executive.	(4) Same as the Executive.
(5) Relying on (1) to (4) above, sets the per pupil formula amount for all schools, except e-schools, at $5,565 for FY 2008 and $5,732 for FY 2009. (Current law sets the formula amount at $5,283 for FY 2006 and at $5,403 for FY 2007.)	(5) Same as the Executive, but sets these amounts for e-schools also.	(5) Same as the House.	(5) Same as the House.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
(6) Relying on (1) to (4) above, particularly the prescribed 100:1 student-teacher ratio, sets a separate per pupil formula amount for e-schools at $3,295 for FY 2008 and $3,387 for FY 2009. (Current law does not set a separate formula amount for e-schools.)	(6) No provision.	(6) No provision.	(6) No provision.
Fiscal effect: The base cost formula amount increases by 3.0% in each fiscal year. The lower base cost formula amount for e-schools is used to calculate the base cost funding transferred to these schools. The resident districts of e-school students, however, are still credited with the higher formula amount for each e-school student in their ADM. Residents districts will, therefore, retain $2,270 in FY 2008 and $2,345 in FY 2009 of base cost funding for each resident student who attends an e-school. Joint vocational school districts have the same formula amount as regular school districts.	**Fiscal effect: Same as the Executive, but the base cost formula amount for e-schools is the same as other schools, so e-schools will receive the higher amount and resident districts will not retain the difference.**	**Fiscal effect: Same as the House.**	**Fiscal effect: Same as the House.**

Specifies that a district's state base cost payment includes not only the aggregated base cost amount after deducting the district's charge-off but also the amount of poverty-based assistance and parity aid calculated for the district, if any. Specifies that the latter two amounts are also included in the total base cost for purposes of calculating a district's "state share percentage" of base cost.	Same as the Executive.	Same as the Executive, but reinstates current language that specifies that data from the Tax Commissioner is used to compute base cost payments.	Same as the Senate.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
Fiscal effect: The cost-of-doing-business factor (CDBF) increased the formula amount for the districts in the highest-cost county by 2.5% ($135) in FY 2007. This percentage declined on a sliding scale for districts in lower-cost counties. Without the CDBF adjustment, all districts will have the same formula amount. The elimination of the base cost guarantee may decrease state base cost funding and, therefore, the state share percentage for some districts, although transitional aid will ensure the amount of total state aid credited to each district will not decrease. The inclusion of poverty-based assistance and parity aid in the base cost calculation will increase the state share percentage for most districts which, in turn will increase many districts' categorical funding amounts such as special education and career-technical education funding. A few very high wealth districts, however, may receive less poverty-based assistance funding if their charge-offs are greater than the sum of their total base cost and poverty-based assistance. Joint vocational school districts are also affected by the elimination of the CDBF and the base cost guarantee, although they also receive transitional aid.	Fiscal effect: Same as the Executive. Revises poverty-based assistance to school districts as follows:	Same as the Executive.	Same as the Executive, but makes the following changes:	Same as the Senate.

Same as the Executive.	Same as the Executive.	Same as the Executive.
Adds a new subsidy for assistance in closing the achievement gap in districts that have a poverty index and an academic distress index of at least 1.0. Defines the academic distress index as the district's academic distress percentage divided by the statewide academic distress percentage. Defines the academic distress percentage as the percentage of buildings in academic watch or academic emergency based on the local report card issued in the prior fiscal year. Calculates the subsidy for qualifying districts as 0.15% of the formula amount multiplied by the district's poverty index, academic distress index, and formula ADM. Provides an additional 3.5% of this amount in the second year to districts that decrease their academic distress percentages.	Same as the Executive.	Same as the Executive, but modifies the calculation of the subsidy in the second fiscal year by providing each district that qualifies for the subsidy in FY 2008 the same amount it received in FY 2008 if its academic distress percentage increases or stays the same and an additional 3.5% of the amount it received in FY 2008 if its academic distress percentage decreases. Also, bases the payment on the most recent school district report card, instead of the report card issued in the prior fiscal year.	Same as the Senate.
Increases the hourly rate component of the academic intervention subsidy by about 3% in each fiscal year to $21.01 in FY 2008 and $21.64 in FY 2009.	Same as the Executive.	Same as the Executive.	Same as the Executive.

receive tier 3 funding. Districts qualifying for the LEP subsidy receive per LEP student from $487 to $974 in FY 2008 and $502 to $1,003 in FY 2009. Districts with poverty indices above 1.0 receive per student up to $14.73 in FY 2008 and $15.17 in FY 2009 for teacher professional development. The big eight districts receive per student from $70 to $122 in FY 2008 and $72 to $126 in FY 2009 for dropout prevention. The urban 21 districts receive per student from approximately $11 to $122 in FY 2008 and approximately $11 to $126 in FY 2009 for community outreach. Although elimination of the guarantee may decrease poverty-based assistance for some districts, total state aid credited to each district is guaranteed not to decrease from the previous year through transitional aid. School districts receiving poverty-based assistance funding would incur some administrative costs for preparing the required annual reports.

Replaces the Executive provision with a provision that revises current law, instead of repealing it, to require that a school district offer property suitable for classroom space for sale to start-up community schools in the district if the district (a) has not used at least 75% of a building for "academic instruction" for at least 75% of a school year (eliminating the option to have used the building for other "educational purposes," including administration or storage) and (b) has not adopted a plan to use at least 75% of it for academic instruction for at least 75% of the next year (rather than a plan to use the whole building within the next three years as under current law). Places a moratorium on new "brick and mortar" community schools from May 1, 2007 to July 1, 2009. Until the moratorium expires on July 1, 2009, prohibits any start-up or conversion community schools from operating unless they were open for instruction as of May 1, 2007. Prohibits sponsors from entering into contracts with community schools between May 1, 2007 and July 1, 2009, except to renew a contract that the sponsor had entered into prior to May 1, 2007 with a community school that was open as of that date. (This provision appears to preclude a community school changing sponsors during the moratorium.) Prohibits sponsors from taking over sponsorship of an e-school from another sponsor during the e-school moratorium, but retains the provision allowing sponsors to renew their contracts with existing e-schools during the moratorium. (Under continuing law there is a moratorium on new e-schools until standards are enacted by the General Assembly.)	Replaces the Executive provision with a provision that permits new start-up schools after June 30, 2007, but only if they contract with an operator that has schools in Ohio or other states that perform at a level higher than academic watch. Also permits the governing authority of a start-up community school that is not managed by an operator to open one other community school in the 2007-2008 school year if (1) the governing authority filed a copy of its contract with the new school's sponsor with the Superintendent of Public Instruction prior to March 15, 2006, and (2) the current school has been open for at least four years, is rated excellent or effective, and made adequate yearly progress for the previous school year. Does not place restrictions on new "brick and mortar" conversion schools, but retains the current law moratorium on e-schools.	Same as the House, but also permits the governing authority of a start-up community school that is not sponsored by the school district in which it is located to enter into another contract with the same sponsor to open an additional start-up school in the 2008-2009 school year that is located in the same district as the current school and that serves grades K to 6, if (1) the governing authority files a copy of the sponsor contract with the Superintendent of Public Instruction by March 15, 2008, and (2) the current school (a) was rated excellent or effective and named a School of Promise for three of the last four school years, (b) made adequate yearly progress for the last four school years, (c) has been in operation at least five years, and (d) is not managed by an operator. Allows the Certificate of Need Fund, which consists of certificate of need (CON) application fees, to be used not only for paying the costs of administering the CON Program, but also for paying the costs of administering Department of Health programs for the following: (1) monitoring providers of certain health care services for compliance with safety and quality-of-care standards and (2) licensing ambulatory surgical facilities and other freestanding health care facilities.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Fiscal effect: There are 106 providers of health care services which are surveyed approximately every 3 years. The cost of the survey can be charged to the provider up to a maximum of $1,250 for an inspection of each health care service, $650 for a complaint inspection, and $650 for a follow-up inspection. The annual maximum fee that may be charged to a provider is $5,000. Costs of surveys above the maximum amount that may be charged to the provider will be charged to the Certificate of Need fund. In addition, there are 422 licensed health care facilities under OAC Chapter 83. All health care facility licenses must be renewed annually. No provision.	Repeals the Household and Small Flow On-Site Sewage Treatment Systems Law that was enacted by Sub. H.B. 231 of the 125th General Assembly.	Replaces the House version with a provision that suspends the operation of specified provisions of Sub. H.B. 231 of the 125th General Assembly, until July 1, 2009.	Same as the Senate.
No provision.	Restores the law related to household sewage disposal systems that existed prior to the Household and Small Flow On-Site Sewage Treatment Systems Law's enactment.	Retains the House version until July 1, 2009, at which time restores the changes to the law that were made by Sub. H.B. 231 of the 125th General Assembly.	Same as the Senate.
No provision.	Requires the Public Health Council to rescind rules related to sewage treatment systems and reinstate the rules related to household sewage disposal systems that were in effect prior to January 1, 2007.	Retains the House version, but establishes requirements and exceptions.	Revises the Senate version by requiring the Director of Health, not later than July 2, 2007, to adopt rules related to household sewage disposal systems that were in effect prior to January 1, 2007, and by requiring the Director to rescind those rules at the same time that the Public Health Council adopts the rules required under the House version. Specifies that effective July 2, 2007, the rules adopted by the Public Health Council under the Household and Small

Flow On-Site Sewage Treatment Systems Law are not valid.

Defines the term "economic impact" to mean (1) the cost of a proposed system; (2) the cost of an alternative system that will not create a public health nuisance; (3) a comparison of the costs of repairing a system as opposed to replacing the system with a new system; and (4) the value of the dwelling or facility that the system services as indicated in the most recent tax duplicate.

Establishes that a public health nuisance is deemed to exist when an inspection conducted by a board of health documents odor, color, or other visual manifestations of raw or poorly treated sewage and either of the following applies: (1) water samples exceed five thousand fecal coliform counts per one hundred milliliters (either MPN or MF) in two or more samples when five or fewer samples are collected or in more than twenty percent of the samples when more than five samples are taken; and (2) water samples exceed five hundred seventy-six E. Coli counts per one hundred milliliters in two or more samples when five or fewer samples are collected or in more than twenty percent of the samples when more than five samples are taken.

Prohibits the Director of Health or the Public Health Council from adopting rules prior to July 1, 2009, that modify or change the requirements established by the bill concerning household sewage and small

	Fiscal effect: Potential loss of permit revenue of approximately $750,000 to the Department of Health. This revenue was to fund, among other things, salaries for four sanitarian program specialists currently on staff, as well as a portion of salary expenses for other staff such as an engineer, programmer, and program manager. Potential increase in expenditures to local health departments relating to retraining of staff and public and possible expenditures relating to reprinting of brochures, pamphlets, etc. that reflects this change.	**Fiscal effect: According to ODH, the Department had anticipated collecting $750,000 in permit revenues under current law. The Department estimates, that under the provision, revenue will be $375,000 ($25 for the permit fee * an estimated 15,000 systems). Of this amount, approximately $94,000 will be used in cooperation with local boards of health, for a grant program to assess the effectiveness of new technologies. The remaining $281,000 will be for program implementation/administration. The provision does allow the boards of health to establish and collect fees. Boards of health would likely see an increase in costs relating to adopting old rules, retraining of staff and the general public and possible expenditures relating to reprinting of brochures, pamphlets, etc. that reflects this change. There could also be additional costs associated with local health department employee time to serve on the advisory committees.**	**Fiscal effect: Unknown. R.C. *3901.021*	**Section: *307.10***	**Section: *307.10***	**Section: *307.10***
Reduces the share of revenue from agent appointment fees that goes to Fund 554 from 75% to 60%, and correspondingly increases the share going to the GRF from 25% to 40%.	Replaces the Executive provision with a provision that requires the Director of Budget and Management to transfer $5 million each fiscal year from Fund 554 to the GRF.	Same as the House.	Same as the House.
Fiscal effect: Reduces revenue to Fund 554 by approximately $5 million per year, and increases revenue to the GRF by the same amount. As a result of this provision, revenue to Fund 554 during the biennium would be approximately $3.3 million less than the appropriations from Fund 554 for the biennium. The balance in the fund projected for the beginning of FY 2008 is sufficient to support the shortfall for the biennium, but the relative sizes of revenues to the fund and appropriations from it is not sustainable indefinitely.	**Fiscal effect: Same as the Executive for the biennium, but no fiscal effect in subsequent years.**	**Fiscal effect: Same as the House.**	**Fiscal effect: Same as the House.**

R.C. *3119.27*	**R.C. *3119.27***	**R.C. *3119.27***	**R.C. *3119.27***
Requires ODJFS to claim $25 from the current processing charge imposed upon an obligor when a court or child support enforcement agency (CSEA) issues or modifies a support order for federal reporting purposes (in accordance with the Deficit Reduction Act of 2005 and administrative rules). The current processing charge is the greater of either (1) 2% of the support payment to be collected under the support order, or (2) $1 per month.	Same as the Executive.	Same as the Executive.	Same as the Executive, but specifies that the processing charge will be claimed annually for federal reporting purposes.
Requires the claim to be collected only in Title IV-D child support cases wherein (1) the obligee has never received Title IV-A (TANF), and (2) ODJFS has collected at least $500 for the obligee.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Requires the ODJFS Director to adopt administrative rules no later than March 31, 2008 to implement the provision.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Fiscal effect: The Deficit Reduction Act gives the state one of four options to account for the charge: (1) retain it from support collected for the obligee, (2) require it to be paid by the individual who applied for services, (3) recover it from the noncustodial parent (obligor), or (4) pay it from state funds. This provision will not affect the amount of the processing charge currently being paid by obligors. Additionally, this provision	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
will not affect the amount of funding the counties receive from ODJFS to carry out child support enforcement. The federal law requires that the state report the entire charge due on cases that meet the criteria as program income regardless of how much is actually collected. The Department estimates that Ohio will therefore be required to report approximately $8.0 million in program income. This will reduce by $8.0 million the amount of child support administrative expenses that are eligible for the 66% federal match. The Department estimates that it currently collects approximately $5.2 million through the existing processing charge on the cases that meet the federal criteria, leaving a deficit of $2.8 million. The Department requested and received funding to cover this gap in funding for the Child Support program.

No provision.	No provision.	Removes a provision of current law that prohibits the court from increasing the amount of child support for reasonable and ordinary uninsured medical or dental expenses and further specifies that whenever a child support order is issued or modified, the court or child support enforcement agency (CSEA) must include provisions in the order for the health care of the child. The order must specify that the obligor and obligee are liable for the health care of the children who are not covered by either (1) private health insurance, or (2) cash medical support.	Same as the Senate.
Requires that health insurance ordered to be provided for a child who is the subject of a child support order be reasonable in cost (does not exceed 5% of the person's annual gross income).	Same as the Executive.	Same as the Executive, but clarifies that the reasonable cost of private family health insurance be the cost that the obligor or obligee contributes (i.e., not including the amount an employer would pay).	Same as the Senate.
Also requires that health insurance ordered to be provided for a child who is the subject of a child support order be accessible (provides primary care services within either 30 miles or 30 minutes driving time from the child's residence). The bill provides a means to accommodate rural or other arrangements via court or agency determination.	Same as the Executive.	Same as the Executive, but limits health insurance coverage to health insurance that provides primary care services within 30 miles of the child's residence. Also clarifies that the court or CSEA to allow private health insurance be farther than 30 miles under certain circumstances.	Same as the Senate.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
If health insurance is not provided by either the obligor or obligee and the obligor's annual gross income is over 150% of FPG, the bill requires the obligor to pay cash medical support in the amount of 5% of that person's annual gross income to either the Office of Child Support to defray the cost of publicly provided health care or to the obligee.	Same as the Executive.	Removes this provision and adds a provision that requires child support orders to include the amount of cash medical support (amount paid toward the cost of health insurance or for other medical costs not covered by insurance) under certain circumstances. Further specifies that the cash medical support must be paid by the obligor to either the obligee if the children are not Medicaid recipients, or to the Office of Child Support to defray the cost of Medicaid expenditures if the children are Medicaid recipients. The court or CSEA must then adjust the monthly child support obligation in accordance with the terms of the support order. Requires the ODJFS Director to create and annually update a table to be used to determine the amount of cash medical support to be paid.	Same as the Senate, but removes the ability of the court to adjust the monthly child support obligation with respect to cash medical support, and clarifies that the CSEA administering the court or administrative order will be wholly responsible for such adjustments in order to reflect the amount paid when private health insurance is not provided. Specifies that the CSEA may change the financial obligations of the parties to pay child support and cash medical support without a hearing or additional notice to the parties.
Cash medical support payments will be offset against the obligor's ordered share of liability for uninsured medical and health care needs of the minor children.	Same as the Executive.	Removes this provision and instead requires the obligor or obligee to inform the court or CSEA when private health insurance becomes available. The court or CSEA must then determine if the coverage is available at a reasonable cost, and if so, the parent who has the available insurance must obtain the insurance. Requires the court or CSEA to give the obligor notice and an opportunity to be heard if the obligor believes there is a mistake of fact regarding whether insurance coverage is reasonable.	Same as the Senate, but removes the court as one of the two avenues to deal with the availability of private health insurance; thus the obligor or obligee will inform only the CSEA when private health insurance becomes available and only a CSEA will determine if it is at a reasonable cost. Consequently removes the requirement that the court give notice and an opportunity to be heard.
The bill also makes conforming changes to the child support computation worksheets.	Same as the Executive.	Same as the Executive.	Same as the Executive.

Fiscal effect: The requirements of this provision will apply to all orders that are new or modified on or after February 1, 2008. This provision will likely increase administrative costs to child support enforcement agencies and the domestic relations courts to obtain the necessary information about, and make a determination on, the reasonableness and accessibility of health insurance and establish or modify an order to include the required considerations for medical support. **This provision is also likely to increase revenues for the Ohio Medicaid program from payments passed on from the Office of Child Support out of receipts of cash medical support payments. According to information LSC obtained from the Office of Budget and Management, the revenue generated from this provision will be an estimated $12.5 million in FY 2008 and $37.5 million in FY 2009. minimal effect on the caseload and cost of the OWF program. A "non-recipient work-eligible parent" is a person who in not part of an assistance group but lives in the home and is required to engage in work activities in order for the assistance group to continue receiving the cash benefit. As of January 31, 2007, Ohio has 110 non-recipient work-eligible parents. If every one of these individuals chose not to engage in work activities resulting in a sanction for every assistance group associated with that individual, then the monthly caseload would decrease by 110 and a corresponding decrease in the amount of cash assistance paid out would be, at most, $45,100 monthly (if all assistance groups were families of three).

Establishes express authority for the use of time-limited Medicaid provider agreements, including the conversion of non-limited agreements to time-limited agreements.	Replaces the Executive provision with provisions that (1) require a Medicaid provider agreement to expire three years from its effective date, (2) require, rather than permit, the adoption of rules, and (3) require the conversion of provider agreements that currently are not time-limited.	Same as the House.	Same as the House, but (1) requires ODJFS to phase-in the use of time-limited provider agreements during a period beginning not later than January 1, 2008, and ending January 1, 2011, (2) requires that a provider agreement expire in not less than three years, rather than exactly three years, (3) excludes provider agreements with managed care organizations, nursing facilities, and intermediate care facilities for the mentally retarded, (4) authorizes ODJFS to make the effective date of a provider agreement retroactive for up to one year from the date of application, and (5) specifies that a non-limited provider agreement can be converted to a time-limited agreement by mailing a notice to the last address on record.
Eliminates the five-year limit that applies to the termination of a provider agreement based on an action brought by the Attorney General.	Same as the Executive.	Same as the Executive.	Same as the Executive.

Fiscal effect: Medicaid reimbursement for providing health care services is contingent on a valid provider agreement being in effect when the services were provided. By allowing the use of time-limited (rather than non-limited) Medicaid provider agreements, this provision of the bill could result in a reduction of the number of provider agreements, and thus could reduce Medicaid costs.	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive, except making the effective date of a provider agreement retroactive for up to one year from the date of application could result in an increase of the number of provider agreements, and thus could increase state Medicaid costs.**

548 (CD-912-JFS) Supplemental Payment Program for Children's Hospitals			
	Section: *309.30.13*	**Section: *309.30.13***	**Section: *309.30.13***
No provision.	Requires that ODJFS implement, on receipt of federal approval, a program for making supplemental Medicaid payments to children's hospitals for qualifying inpatient services occurring in FYs 2008 and 2009 and limits expenditures under the program in each fiscal year to $6 million (state share) plus the corresponding federal match, if available, from appropriation item 600-525, Health Care/Medicaid, in ODJFS's budget.	Replaces the House provision with a provision that, for FYs 2008 and 2009 only, requires payments made by the ODJFS Director for cost outlier claims less than the amount specified in Ohio Administrative Code 5101:3-2-07.9(A)(6) [$443,463, adjusted for inflation] to be increased, subject to the limitation in the next paragraph, from (1) an amount equal to 85% of the product of the hospital's allowable charges and the hospital's Medicaid inpatient cost-to-charge ratio, to (2) an amount equal to 100% of the product of the hospital's allowable charges and the hospital's Medicaid inpatient cost-to-charge ratio.	Same as the Senate.
No provision.	No provision.	Requires the ODJFS Director to cease paying children's hospitals for the cost outlier claims described above at an amount that is calculated under the formula in (2), above (100% level), and to revert to paying the hospital at an amount that is calculated under the formula in (1), above (85% level), when the difference between the total amount the Director has paid at the 100% level for such outlier claims and the total amount the Director would have paid for these claims at the 85% level exceeds the sum of the state funds earmarked for the additional cost outlier payments and the corresponding federal match.	Same as the Senate.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
No provision.	No provision.	Requires the ODJFS Director to make supplemental Medicaid payments to hospitals for inpatient services under a program modeled after the program that ODJFS was required to create under Section 206.66.70 of Am. Sub. H.B. 66 of the 126th General Assembly for supplemental payments to children's hospitals when the difference between the total amount the Director has paid at the 100% level for the cost outlier claims described above and the total amount the Director would have paid at the 85% level for such claims does not require the expenditure of all state and federal funds earmarked for the additional cost outlier payments in the applicable fiscal year.	Same as the Senate.
No provision.	No provision.	Prohibits the ODJFS Director from adopting, amending, or rescinding any rules that would result in decreasing the amount paid to children's hospitals for cost outlier claims.	Same as the Senate.
	Fiscal effect: Additional funding of approximately $15.1 million all funds ($6 million state share) in FY 2008 and $15.6 million all funds ($6 million state share) in FY 2009 is provided in GRF appropriation item 600-525, Health Care/Medicaid, to fund supplemental payments to children's hospitals.	**Fiscal effect: Allows for the spending of the full $6,000,000 earmark for children's hospitals.**	**Fiscal effect: Same as the Senate.**

No provision.	Creates the Medicaid Reserve Fund in the state treasury. Requires the Director of OBM to transfer $100,000,000 in FY 2008 and $185,000,000 in FY 2009 from the General Revenue Fund to the Medicaid Reserve Fund. [***VETOED: With Controlling Board approval,***] allows the Director of Budget and Management, (1) to transfer cash from the Medicaid Reserve Fund to the GRF, (2) increase the corresponding state share of appropriations in appropriation item 600-525, Health Care/Medicaid, and (3) adjust the federal share accordingly. Requires, at the end of each fiscal year, the Director of Budget and Management to transfer from the Medicaid Reserve Fund all the cash balance, including interest earnings, in excess of any transfer [***VETOED: approved by the Controlling Board***] to the credit of GRF. Requires the Director of Budget and Management to make transfers to the Budget Stabilization Fund and the Income Tax Reduction Fund in accordance with section 131.44 of the Revised Code.	Same as the House, but increases the amounts to be transferred from the GRF to the Medicaid Reserve Fund from $100,000,000 to $120,000,000 in FY 2008 and from $185,000,000 to $205,000,000 in FY 2009.	Removes the provision of the bill that requires the Director of Budget and Management, at the end of each fiscal year, to transfer any interest earnings to the credit of the General Revenue Fund.
	Fiscal effect: Minimal increase in administrative costs to the Office of Budget and Management.	**Fiscal effect: Same as the House.**	**Fiscal effect: None. No provision.	Removes specific provisions in statute regarding the access of the Legal Rights Service to the records of providers of services to mentally ill, mentally retarded, and developmentally disabled persons and instead requires access to those records to be in accordance with federal law.	Limits the access of the Legal Rights Service to records held by community residential facilities and records of contract agencies of county boards of mental retardation and developmental disabilities and boards of alcohol, drug addiction and mental health services to when consent to that access has been granted or certain circumstances apply.	Same as the Senate.
No provision.	Requires the Legal Rights Service to maintain information confidentially in accordance with the law that applies to that information.	Provides that all records received or maintained by the Legal Rights Service in connection with any investigation, representation, or other activity are confidential and must not be disclosed except as authorized by the person represented by the Legal Rights Service or, subject to any privilege, a guardian of the person or parent of the minor.	Same as the Senate.
No provision.	No provision.	Replaces a provision specifying that communications between Legal Rights Service personnel and agents and Legal Rights Service clients are "confidential" with a provision specifying that those communications are "privileged."	Same as the Senate.

Makes permanent a requirement that 0.5% of all money wagered on wagering pools other than win, place, or show (referred to as exotic wagers) be paid as a tax and distributed to the State Racing Commission Operating Fund. This is in addition to other taxes imposed on amounts wagered.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Fiscal effect: The 0.5% tax is an increase from 0.25% in FY 2008 and thereafter. This tax is imposed at the 0.5% rate in FY 2007. With the continuing downtrend in wagering at Ohio racetracks, this additional 0.25% beginning in FY 2008 may be equal to about $650,000 in annual Racing Commission receipts currently, and less in future years.	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**

(2) Requires that GRF appropriation item 235-531, Student Choice Grants, be used to support supplemental need-based grants under section 3333.27 of the Revised Code.	(2) Same as the Executive, but removes the "supplemental need-based grants" reference and specifies that in FY 2008 and FY 2009, student choice grants be awarded only to students who have family incomes of $95,000 or less.	(2) Same as the House, but eliminates the income limit for FY 2008 and FY 2009, thereby restoring current law's eligibility criteria for student choice grants, [***VETOED: as well as transfers and appropriates the unencumbered balance at the end of FY 2008 to FY 2009.***]	(2) Same as the Senate.
Fiscal effect: It would decrease student choice grant expenditures; however, it is unclear how many students would be affected at this point. The executive budget provides approximately $18.0 million in each fiscal year for this program, compared with estimated expenditures of approximately $53.0 million in FY 2007.	**Fiscal effect: Increases the number of student eligible for student choice grants compared with the Executive budget and increases the student choice grant appropriations to $38.5 million in each year.**	**Fiscal effect: Provides the same amounts of appropriations as under the House budget, but maintains current law grant eligibility criteria (without the family income restriction).**	**Fiscal effect: Same as the Senate.**

No provision.	No provision.	No provision.	Permits a school district that has already undertaken a classroom facilities project under the Exceptional Needs Program and that within two years of the bill's effective date will proceed with another project under that program to exceed the statuary debt limits in order to issue voter-approved bonds to pay for that project, including the cost of locally funded initiatives that are not part of the project, as long as the district's total net indebtedness after the issuance of those bonds does not exceed 125% of the statutory debt limit.
No provision.	No provision.	No provision.	Requires the School Facilities Commission to notify the Superintendent of Public Instruction whenever a school district will exceed either debt limit.
			Fiscal effect: Generally, a school district may not incur debt in a net amount greater than 9% of its tax valuation. In addition, a school district usually may not submit to its voters the question of incurring debt in an amount that would make the district's net indebtedness exceed 4% of its tax valuation, unless both the state Superintendent of Public Instruction and the Tax Commissioner consent. No provision.	No provision.	Adds a city, local, or exempted village school district's net gain in interdistrict open enrollment students to its formula ADM (average daily membership) for purposes of determining the district's adjusted valuation per pupil for its school facilities funding ranking, if its open enrollment net gain is at least 10% of its formula ADM. (A district's "open enrollment net gain" is the difference between the number of students coming in from another district and the number of its own resident students going out to enroll in another district.) (1) Expands the homestead exemption to $25,000 of market value for homeowners who are (a) age 65 or older, (b) permanently and totally disabled, or (c) surviving spouses age 59 to 64 of persons who applied and qualified for the tax reduction under (a) or (b). Eliminates the current income ceiling for eligibility. Tax relief would be at the effective millage rate for residential and agricultural real property. Participants in the current homestead exemption program would receive the greater of the tax relief for tax year 2006 under the current program or that provided by the new program. The state would reimburse school districts and other local governments for forgone tax receipts. The change would be effective for tax year 2007, paid one year in arrears for owners of real property and concurrently for homeowners whose primary residences are taxed as manufactured or mobile homes.	Same as the Executive, except corrects the reference to the effective tax rate for residential and agricultural property to include all taxes levied. See Comparison Document entry 592-TAX regarding possible delay in commencing the expanded homestead exemption. Fiscal effect: (1) Additional cost to the state for reimbursing local governments would be about $128.5 million in FY 2008 and about $257 million in FY 2009. However, the effective tax rate in the bill is as defined in division (B)(3) of section 319.301 of the Revised Code, which excludes fixed-sum levies, inside mills, taxes provided for by the charter of a municipal corporation, and taxes other than those charged for current expenses. Excluding these taxes from calculation of tax relief would substantially reduce the amount of tax relief provided. (2) The estimated cost to the state for compensation to county auditors is $3 million in FY 2009. However, the bill leaves in place compensation provided in current law, Revised Code section 323.156 (not part of the bill), of 2% of the amount of these reductions, which appears to imply total compensation to county treasurers and auditors equaling 3% of these costs.	**Fiscal effect: Same as the Executive, except correction of the reference to the effective tax rate for residential and agricultural property implies that the amount of tax relief, and the cost to the state to reimburse local governments for tax revenues forgone, will be that intended by the Executive.**	**Fiscal effect: Same as the House, except reducing the $25,000 of market value tax exemption by the applicable percentage depreciation, for manufactured homes that acquired situs in this state prior to 2000, may reduce slightly the amount of reimbursement to local governments paid by the state.**	**Fiscal effect: Same as the Senate.**

Specifies that tangible personal property leased to a telephone, telegraph, or interexchange telecommunications company, other than in a sale and leaseback transaction, is to be taxed at the same assessment percentage as is general business personal property until the general business property tax is completely phased out at the end of 2008, unless it is used to render public utility service. In 2009 and 2010, that property is to be assessed at the phase-down percentage applying to such property that is used to render public utility service, and the value of the property is to be determined in the same manner as property owned by those companies. Clarifies that tangible personal property of a telephone, telegraph, or interexchange telecommunications company is to be valued in the same manner as other public utility property; that those companies shall continue to file a single return with the Tax Commissioner instead of county auditors; and that the $10,000 exemption for personal property is not applicable to any personal property valued under the public utility property valuation law. If these companies would otherwise have been subject on this property in all years to the phaseout schedule for telecommunications property, the assessment rates would have been 7.5 percentage points higher in 2007 and 8.75 percentage points higher in 2008. Section: ***803.06***	**Section:** ***803.06***	**Section:** ***803.06***	**Section:** ***803.06***
Provides additional time for application for the homestead exemption or the 2.5% rollback for tax year 2007, notwithstanding provisions of current law that set earlier deadlines. The time for application is extended, for both real property and manufactured or mobile homes, from the first Monday in June until 120 days after the effective date of Section 803.06 of the bill.	Replaces the Executive provision with a provision that delays the expanded homestead exemption for real property until the Director of Budget and Management certifies either that there are or will be sufficient revenues, not otherwise appropriated or encumbered, to pay the additional property tax reimbursements that will result from that expansion. Delays the expanded homestead exemption under the manufactured or mobile home tax to the following tax year, implying that the first year of reduced payments would be the same year for real property and for manufactured and mobile homes.	Same as the Executive, except changes the initial application deadline to October 1, 2007. The tax year in which the changes to the homestead exemption first apply to the manufactured home tax is changed to tax year 2008. For homesteads in housing cooperatives, the nonprofit corporation that owns and operates the housing cooperative shall obtain applications from the auditor and provide them to occupants by August 1, to be returned to the corporation by September 1, which is to file them with the auditor by October 1. For an applicant whose request for a homestead exemption is denied, the auditor's deadline in 2007 to notify the applicant of the reasons for the denial is extended to November 1.	Same as the Senate.
Fiscal effect: Makes feasible starting the enhanced homestead exemption in tax year 2007, otherwise has no fiscal effect.	**Fiscal effect: Delaying the change to the homestead exemption would reduce state expenditures to reimburse local governments for forgone tax revenues by an estimated $128.5 million in FY 2008. If implementation of the enhanced homestead exemption is delayed one year, reimbursements to local governments for the loss of tax receipts would be reduced an estimated $128.5 million in FY 2009; if delayed two or more years, reimbursements in FY 2009 would be reduced $257 million. Imposes the sales tax on motor vehicle purchases by nonresidents unless the purchaser's home state has no similar tax or does not provide a credit against its tax for taxes paid in Ohio. The tax rate on sales to nonresidents will be 6% or the sum of the state's 5.5% rate and the lowest of all local tax rates, whichever is less. Revenue from the local portion of the tax is distributed among all counties in proportion to motor vehicle registrations. This provision does not affect the taxation of motor vehicle sales to residents.	Partially replaces the proposed nonresident motor vehicle sales tax exemption in the executive recommendation. Grants an exemption if the nonresident's state provides a similar nonresident exception, or does not provide a credit for sales or use tax paid to this state, or does not impose a sales or use tax on the ownership or use of motor vehicles. If a nonresident's state does not provide a nonresident exception and the nonresident would pay lower net tax if the sale occurred in the nonresident's state, the Ohio tax is reduced to the amount that would be collected by the nonresident's state, [***VETOED: taking into consideration all applicable credits and exemptions***], with a 1/2% tax portion distributed to the county in which the sale occurs. Increases the permanent vendor's discount for prompt remittance of sales and use tax to 1%, up from 0.75%. However, the maximum per-return discount is capped at $30. The provision extends the current temporary discount of 0.9% through July 2007. The executive recommendation also denies the discount if a certified service provider receives an allowance for performing the vendor's sales tax functions. Requires motor vehicle dealers and sellers of other titled property to claim the discount on their sales tax reports instead of deducting the discount directly from tax remittances to the clerk of courts.	Returns the permanent vendor discount to 0.75% and eliminates the maximum per-return discount of $30. The other provisions of the executive recommendation are maintained. No provision.	No provision.	Ensures that the property tax replacement payments from portions of the kilowatt-hour and natural gas (Mcf) taxes and paid on account of county-wide levies be apportioned among the various levies and levy purposes instead of the county general fund. Provides that replacement payments to each local taxing unit must be retained by the county in the county undivided income tax fund if the amount to be distributed is less than $5, and must be added to the next distribution amount.	Same as the Senate.
		Fiscal effect: May shift a portion of these payments to a county as a taxing unit from the county's general fund to other county funds in the specified proportion. For example, property tax replacement payments that derive from a county MR-DD levy would go to the fund that supports the county MR-DD board, while such payments currently go to the general fund. Creates the Ohio Tobacco Settlement Financing Authority for the purpose of purchasing and receiving an assignment of the tobacco settlement receipts and issuing obligations. The Authority is to consist of the Governor (as the chair), the Director of Budget and Management (as the secretary), the Tax Commissioner, the Treasurer of the State, the Attorney General, and the Auditor of State, or their designees. OBM staff is required to provide support to the Authority.	Same as the Executive, but removes the Attorney General from the Authority.	Same as the House, but changes the name of the Ohio Tobacco Settlement Financing Authority to the Buckeye Tobacco Settlement Financing Authority.	Same as the Senate, but removes the Auditor of State and the Tax Commissioner from the Authority so that it will be composed of only three members: Governor, OBM Director, and Treasurer of State. Alters, in response to fewer members, the quorum and voting requirements for the Authority to take official action from four to two.
Permits the state to assign and to sell to the Authority all or a portion of the amounts to be received by the state under the Tobacco Master Settlement Agreement. In addition, the executive proposal permits the Authority to accept and purchase those amounts, and to issue and sell obligations, as provided by	Same as the Executive.	Same as the Executive. the proposal.			
Requires the state, among five different orders, to not agree to any amendment of the tobacco master settlement agreement that materially and adversely affects the Authority's ability to receive the portion of the receipts under the tobacco master settlement agreement assigned and sold to the issuing authority and to enforce by the Attorney General the rights of the Authority to receive the receipts under the tobacco master settlement assigned and sold to the issuing authority to the full extent permitted by the agreement.	Same as the Executive, but instead provides that the State may, rather than shall, covenant, pledge and agree in the bond proceedings that it shall maintain statutory authority for, and cause to be collected and paid directly to the Authority the pledged receipts. Also, removes the Attorney General from the provision of enforcing the rights of the Authority to receive the receipts.	Same as the House, but adds another provision to the list of five to include that the State may covenant, pledge and agree in the bond proceedings that it will not agree to any amendment of the tobacco master settlement agreement that adversely affects the Authority's ability to receive the settlement amounts assigned and sold to the Authority.	Same as the House, but prohibits the bond proceedings from materially impairing (1) the rights of the Authority to fulfill the terms of its agreements with the holders and owners of outstanding obligations and (2) the rights and remedies of holders or owners of outstanding obligations or the security for those obligations. Permits the bond proceedings to provide or authorize the manner for determining material impairment of the security for any outstanding obligations.
Specifies that these obligations are to be issued to pay the costs of capital facilities for: (1) housing branches and agencies of state government, including facilities for housing state agencies, for a system of common schools throughout the state, and for use as jail facilities or workhouses; (2) state-supported or state-assisted institutions of higher education; (3) mental hygiene and retardation; and (4) parks and recreation. Same as the Senate.
Specifies that the aggregate principal amount of obligations issued under the bill cannot exceed $6.0 billion, exclusive of obligations issued to refund, renew, or advance refund other obligations issued or incurred, with at least 75% of the aggregate net proceeds of the obligations issued having to be paid to the state for deposit into the School Building Program Assistance Fund (Fund 032) under the School Facilities Commission. 	Fiscal effect: These provisions have no readily discernible fiscal implications for state revenues and expenditures. Some local courts may temporarily forego filing fee revenues that might otherwise have been collected in one fiscal year only to collect it in a subsequent fiscal year. The effect of these potential temporary shifts in the collection of filing fee revenues in any given year is likely to be minimal. Relative to local court operations, the likely potential effect appears to be that the resolution of certain proceedings	**Fiscal effect: Same as the House.**	**Fiscal effect: Same as the House.**

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
		provides that the information filed with the county auditor may be maintained on the tax list or the real property record, rather than on both the tax duplicate and real property record.	
No provision.	No provision.	Modifies the definitions of "political subdivisions" by providing that it includes a county that has a population of more than 200,000 according to the most recent decennial census or a township, municipal corporation, or other body politic that is located in a county that has a population of more than 200,000 according to the most recent decennial census. Modifies the definition of "residential rental property" to limit the real property that is covered by the definition to real property located in a county that has a population of more than 200,000, according to the most recent decennial census.	Same as the Senate.
	Fiscal effect: Potential reduction in administrative filing costs for county auditors in those counties where the board of county commissioners opts not to enforce the law.	**Fiscal effect: Potential increase in filing costs for counties with populations greater than 200,000 whose county commissioners would not have required such notifications to be filed. Potentinal decrease in costs for allowing the record to be maintained on either the tax duplicate or real property record instead of both. Potential increase in costs for required notifications to residential property owners. Potential increase in fine revenues for any rental property owner that violates the provision.**	**Fiscal effect: Same as the Senate.**

1005 (CD-834-MIS) Notice of Hearings and Orders Under the Administrative Procedure Act			
R.C. *119.07*	**R.C. *119.07***	**R.C. *119.07***	**R.C. *119.07***
Requires administrative agencies to send secondary notices of hearings in Administrative Procedure Act adjudications by ordinary mail (instead of personal service or publication in a newspaper as under current law) after a notice of hearing that was sent by certified or registered mail is returned because of a failure of delivery.	Same as the Executive.	Same as the Executive, but distinguishes a "failure of delivery" from a "refusal of delivery." Specifies that a second notice is to be sent by ordinary mail only if the party fails to claim or refuses delivery of the first notice sent by registered mail.	Same as the Senate.
Requires a second notice upon failure of delivery and service by personal delivery or publication only after the second notice has been returned showing failure of delivery.	Same as the Executive.	Same as the Executive, but specifies that if any notice sent by registered or ordinary mail is returned showing failure of delivery, the agency is to serve the second notice by personal delivery or by publication (as under current law).	Same as the Senate.
Requires the agencies, if that ordinary mail notice is also returned for failure of delivery,	Same as the Executive.	No provision.	Same as the Senate.

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
to notify the attorneys or other representatives of record. Requires the agency, if there are no attorneys or representatives of record, to serve the notice either through personal service or publication in a newspaper.			
Authorizes an employee or agent of an agency to make personal service of a notice on a party at any time.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Specifies that a refusal of delivery, either by personal service or by mail, is not a failure of delivery.	Same as the Executive.	Same as the Executive, but adds that service of a notice is deemed to be complete if the party refuses delivery.	Same as the Senate.
Specifies that failure of delivery occurs only when, with reasonable diligence, a party cannot be found to make personal service of notice, or if a mailed notice is returned by the postal authorities marked undeliverable, addressee unkown, or forwarding address unknown or expired.	Same as the Executive.	Same as the Executive, but limits failure of delivery to the return of a mailed notice marked undeliverable, address or addressee unknown, or forwarding address unknown or expired.	Same as the Senate.
Fiscal effect: May reduce the costs incurred by administrative agencies in serving secondary notices of hearings in Administrative Procedure Act adjudications.	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**

		Section: *512.01*	**Section: *512.01***
No provision.	No provision.	Specifies that up to $100,000,000 in cash from FY 2007 unobligated excess revenue shall remain in the General Revenue Fund (GRF) and roll forward in FY 2008.	Same as the Senate.
		Fiscal effect: Possible reduction in amount of surplus funds transferred to the Budget Stabilization Fund (BSF) and Income Tax Reduction Fund (ITRF) in fiscal year 2008.	**Fiscal effect: Same as the Senate.**

As Introduced (Executive)	As Passed by the House	As Passed by the Senate	As Amended by Conference Committee
1009 (CD-1044-MIS) Public Contractor Campaign Contributions Made Before April 4, 2007			
		Sections: ***631.05, 631.06***	**Sections:** ***631.04, 631.05, 631.06***
No provision.	No provision.	Specifies that provisions of the Campaign Finance Law that restrict public contracting based on political contributions that were enacted in Am. Sub. H.B. 694 of the 126th General Assembly apply only to contributions made on or after January 1, 2007.	Same as the Senate, except that the contribution restrictions apply only to contributions made on or after April 4, 2007
No provision.	No provision.	Repeals provisions of that bill specifying that state agencies and political subdivisions are not prohibited from awarding a contract based on contributions made by a child of a person responsible for an entity seeking a public contract or by any combination of persons responsible for an entity seeking a public contract prior to January 1, 2007.	Same as the Senate.
No provision.	No provision.	Specifies that the provisions of the bill that restrict the application of Am. Sub. H.B. 694 of the 126th General Assembly to contributions made on or after a specified date, are intended to clarify the General Assembly's original intent in enacting that act, are remedial in nature, and apply to contracts awarded on or after the effective date of that act.	Same as the Senate.
