Introduction

The Comparison Document provides brief descriptions and estimates of the fiscal effect for the provisions that make up the executive recommended version and subsequent versions of the biennial budget bill of the 128th General Assembly, H.B. 1. The document is arranged in alphabetical order by state agency. It also includes two nonagency items for which appropriations are made, Employee Benefits Fund (PAY) and Revenue Distribution Funds (RDF), as well as a Miscellaneous (MIS) section, under which Local Government provisions can be found. A Table of Contents follows this Introduction. Three indices are located at the end of the document. The first index gives the page number of each particular item within the sections; the second index lists cross-references by agency; the third index lists items affected by the Governor's vetoes by agency.

Generally within an agency's section, items that involve Revised Code changes come first, followed by items that involve uncodified (i.e., temporary) law provisions. The sections for the Department of Education, the Department of Job and Family Services, and the Department of Taxation are first arranged by general topic areas. If an item affects more than one agency, it is described under one of the affected agencies, rather than all of the agencies. However, the other agencies are listed in the cross-referencing index at the end of the document. This index lists, for each agency, all entries that affect the agency but are not included in that agency's section as well as the page numbers for these entries. A reader who is interested in all provisions affecting a certain agency should consult the cross-referencing index in addition to the agency's section.

Each particular item is also assigned a unique identification number. This number begins with an agency's three-letter Central Accounting System (CAS) code followed by a number (DEV-15, for example). A reader who wants to track an item across several versions of the Comparison Document may find the identification number useful.

Items affected by the Governor's vetoes are noted by either the words "VETOED" or "PARTIALLY VETOED" in the item's subject line. Within the item description, vetoed components are contained within the bracketed text. However, fiscal effect entries for the vetoed or partially vetoed items do not reflect the effects of the vetoes. The Comparison Document does not include appropriation amounts for the agencies. Please see the Legislative Service Commission's Budget in Detail spreadsheet for that information. For a complete discussion of the statutory changes in H.B. 1, see the Legislative Service Commission's Bill Analysis.

Department of Aging		Main Operating Appropriations Bill		H. B. 1
Executive		As Passed by the House	As Passed by the Senate	As Enacted
No provision.		Requires the Department to prepare an annual report regarding individuals who are the subjects of consultations and elect to receive certain Medicaid-covered home and community-based services.	Same as the House.	Same as the House.
Fiscal effect: These provisions could increase the number of long-term care consultations performed and thus increase costs for the Department of Aging. However, if more consultations are performed then it is possible that services may be more efficiently allocated, which could ultimately save costs for the Department. The Department may realize an increase in fine revenue for denying access to the facility or to a resident as needed to perform consultations. Minimal administrative savings could occur for entities conducting the consultations due to the elimination of the requirement to provide a written summary of each consultation performed.		Fiscal effect: Same as the Executive, but since the consultations for nursing facilities are permissive, the Department will perform them as appropriations allow. Costs could increase for provisions requiring the Department to assist individuals in accessing all appropriate sources of care and services and monitoring individuals who have received a consultation and received certain Medicaid services. Minimal increases in administrative costs could occur as a result of the provision requiring the Department to prepare an annual report regarding individuals who are subjects of consultations and elect to receive certain Medicaid services. <p>Fiscal effect: Decrease in payroll expenditures. In order to achieve the savings described above, the executive budget proposes to reduce exempt employee compensation by up to 5% based on a graduated scale, and by comparable amounts or concessions from employees subject to collective bargaining agreements. According to OBM, employees earning \$125,000 or more would be subject to a 6% reduction. Additionally, the executive proposes to lower the amount of the dental, vision, and life insurance premiums paid by the state from 100% to 90%, to use furloughs when appropriate, and to increase the mandatory early retirement incentive trigger. All of these options may be used in varying degrees.</p>	<p>Fiscal effect: Same as the Executive, but, according to DAS estimates (which include both exempt and non-exempt employees), savings to the state during the FY 2010-FY 2011 biennium are expected to be approximately \$143.7 million from the cost savings days, approximately \$30 million per year from the freeze on step movement, and approximately \$18.1 million per year from the moratoria on personal leave accrual and conversion, for a total of approximately \$191.8 million in annual savings. In addition, there would be additional savings due to the elimination of pay supplements for intermittent employees. Increasing the period after which employees must be paid for unused compensatory time will likely reduce payments for state agencies for unused compensatory time, as employees will have a greater period of time in which to use compensatory time.</p> <p>Substantial one-time increase in FY 2012 to provide pay supplements to part-time and full-time employees. As of March 2009, there were 55,950 full-time and 1,640 part-time employees working for executive branch agencies, and 2,628 full-time and 120 part-time employees working for the Attorney General, Treasurer, Secretary of State, or Auditor of State. <p>Fiscal effect: No difference in the total fee amounts paid by an applicant for a new license, as the portion paid that is deposited into the Real Estate Appraiser Recovery Fund (Fund 4B20) will be decreased accordingly (from \$100 to \$50) in rule. Therefore, there would be a gain in revenue to the Real Estate Appraiser Operating Fund (Fund 6A40) due to the increased portion of a new applicant's fee being deposited there and a corresponding decrease in revenue to Fund 4B20. The Department indicates there is no intention to increase the renewal fee beyond the existing \$125. This is so because Fund 6A40 receives a larger amount of revenue when an individual renews within the grace period and pays a late fee (totaling \$187.50), than when a new license is applied for if the grace period has expired (under the bill, \$175) even though total state fees paid by an applicant to renew late (\$212.50) are lower than those to apply for a new license (\$250). Fiscal effect: Counting kindergarten students as 1.0 FTE increases statewide ADM by about 66,000. There may be administrative savings for districts with significant numbers of resident students attending community schools achieved by funding students where they are educated, as opposed to where they reside, because less resources may be needed for tracking students. Using ADM from the prior year allows a greater level of planning by districts as they better know in advance the amount of state funding they are likely to receive.	Fiscal effect: Same as the Executive. Department of Education		Main Operating Appropriations Bill		H. B. 1
Executive		As Passed by the House	As Passed by the Senate	As Enacted
Defines a school district's "class one effective operating tax rate" as the quotient obtained by dividing the district's class one taxes charged and payable for current expenses by the district's class one taxable value.		Same as the Executive, but specifies that the "class one effective operating tax rate" does not include the following fixed sum levies: (1) emergency levies, (2) substitute levies, (3) incremental levies, and (4) conversion levies.	No provision.	Same as the House.
No provision.		No provision.	No provision.	Modifies the computation of the rate of a levy a school districts may impose to compensate for a reduction in the state's share of the district's funding caused by an increase in the formula charge-off to correspond with the phased-in reduction in school district charge-off rates under the evidence-based school funding model.
Fiscal effect: Under current law, school districts contribute 23 mills of their recognized valuation toward base cost funding and up to 3.3 mills of recognized valuation toward special education, career-technical education, and transportation funding. Reducing the local share to 20 mills increases the state share of the calculated adequacy amount and reduces the local share. Additionally, the use of recognized valuation smoothes changes in state aid due to valuation reappraisals and updates. Using taxable value instead of recognized value for districts that levy less than 20.1 effective class-one operating mills eliminates this smoothing effect for those districts.		Fiscal effect: Same as the Executive, but the impact of the lowered charge-off is tempered by phasing it in over five years. Also, the state share will increase and local share decrease for those districts with more than 25% of potential taxable valuation exempted from taxes.		Fiscal effect: Same as the House.

Requires the State Board of Education to establish qualifications for the following types of educator licenses and to begin issuing them January 1, 2011:

(1) A four-year, nonrenewable resident educator license for which the minimum qualifications must be a bachelor's degree from a teacher preparation program;

(2) A five-year, renewable professional educator license for which the minimum qualifications must be a bachelor's degree from an accredited institution of higher education, successful completion of the Ohio Teacher Residency Program for applicants whose prior license was a resident educator license or an alternative resident educator license, and demonstration that students in the applicant's classroom have achieved a value-added measure designated by the Superintendent of Public Instruction;

Eliminates the scheduled termination (June 30, 2009) of a provision of the certificate of need (CON) statutes permitting addition of long-term care beds to a facility if the beds either replace existing beds or are relocated from a facility in the same county.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Establishes a new CON comparative review procedure under which long-term care beds may be relocated from a county with excess beds to a county with a bed need, as determined by the Director of Health.	Same as the Executive.	Same as the Executive, but (1) reduces to 90% (from 95%) the comparative statewide occupancy rate to be used in determining whether a county has a bed need, (2) reduces to 90% (from 95%) the county occupancy rate that may qualify a facility to receive a CON for an increase in beds even when the Director has determined that the county does not need additional beds, (3) requires the Director to consider the bed need for the census tract in which a facility is located if the facility is in a federally designated health professional shortage area, or, if the facility is not in such an area, the bed need for the area within a 15-mile radius of the facility as provided in the Executive, and (4) requires the Director, in determining which CON applicants should receive priority in the comparative review	Same as the Senate.

Provides for each comparative review process to consist of two phases occurring over a four-year period.	Same as the Executive, but (1) changes the deadline for accepting CON applications to April 30 (instead of March 31) of the second year of the initial phase of the comparative review period and (2) provides for the second phase of the review period to begin on July 1 of the third year (rather than the second year) of the review period.	Same as the House, but limits the first CON comparative review period to two years, rather than four, with no second phase to occur in that review period.	Same as the Senate.
No provision.	No provision.	Requires the Director of Health to accept CON applications for an increase of up to 30 beds in an existing nursing home if all of the following conditions are met: (1) the proposed increase is attributable solely to a relocation of beds from one existing nursing home to another in a contiguous county, (2) beds will remain in the original county after the relocation, and (3) the relocated beds are proposed to be licensed as nursing home beds.	Same as the Senate.
No provision.	No provision.	No provision.	Establishes a limited extension of the CON Program's moratorium (which expired June 30, 2009) on increases in the number of long-term care beds, specifically by (1) permitting the Director to grant a CON or accept an application for review only if the proposed bed increase is attributable solely to the replacement or relocation of existing beds within the same county and (2) requiring the Director to return applications

Executive	As Passed by the House	As Passed by the Senate	As Enacted
No provision.	No provision.	Modifies current reasons and establishes new reasons for which the Director must deny an application for a CON for addition of long-term care beds to an existing facility or for the development of a new facility, particularly by replacing the standard for denial that is based on a long-standing pattern of deficiencies with a standard for denial that is based on citations for deficiencies during the period encompassed by the three most recent standard surveys of the facility.	and fees when CONs cannot be approved as a result of the moratorium extension. (1) Requires that all health care plans (i.e., sickness and accident insurance policies, health insuring corporation plans, multiple employer welfare arrangements, and public employee benefit plans) that provide coverage for unmarried dependent children extend coverage, under certain conditions, until the dependent child reaches 29 years of age.	(1) Same as the Executive, but requires insurers to offer coverage at the insured's request, rather than requiring coverage of those dependents automatically. Specifies that the proposed offer of coverage does not require employers to pay for any part of the premium for an unmarried child that has already attained the normally limiting age specified in the policy. Specifies that multiple employer welfare arrangements must provide the same information that insurers are required to provide under the bill regarding limiting age for a dependent child's health insurance coverage.	(1) No provision. The increase in cost to the state may be in the millions in FY 2010 and is estimated to be approximately \$9 million in FY 2011 and future fiscal years. The costs would be paid by the State Employee Health Benefit Fund (Fund 8080), of which somewhat less than half would be derived from GRF-supported payroll. The increase in cost to municipalities, townships, and counties is estimated to be approximately \$31.5 million per year statewide, and the costs to school districts are estimated to be approximately \$36.7 million statewide, starting in the first fiscal year that the requirement is fully phased in. The executive proposal estimates that the tax provisions would result in a loss of GRF revenue from the income tax of approximately \$6.0 million in FY 2011. That implies a loss of approximately \$0.4 million to the local government funds.</p>	<p>Fiscal effect: Same as the Executive for the tax provision, but permissive for other provisions. Replaces the Executive provision with a provision that (1) creates a formula (different from the formula included in the Senate) for determining the franchise permit fee that is based in part on 5.5% of net patient revenues of nursing homes and hospital long-term care units and a base of \$11.95 and (2) requires ODJFS to recalculate the franchise permit fee if the amount assessed for a fiscal year exceeds 5.5% of the actual net patient revenues for all nursing homes and hospital long-term care units for that fiscal year and to credit nursing homes' and hospitals' franchise permit fees for the following fiscal year.
No provision.	Requires ODJFS to seek a federal waiver to (1) reduce the nursing home franchise permit fee to zero dollars for each nursing home that is exempt from state and federal taxation, does not participate in Medicaid or Medicare, and provides services for the life of each resident without regard to the resident's ability to secure payment for the services and (2) reduce, for each nursing facility with more than 200 Medicaid-certified beds, the franchise permit fee for a number of the facility's beds specified by ODJFS to the amount necessary to obtain approval of the waiver. 694 JFS - 19 Medicaid Managed Care Reimbursement Rate for Noncontracting Hospitals				
R.C. 5111.162 Revises the requirement that a hospital not under contract with a Medicaid managed care organization (MCO) provide services to Medicaid recipients enrolled in the MCO and accept from the MCO, as payment in full, the amount that would have been paid under the Medicaid fee-for-service system by: (1) requiring that medically necessary services be provided whenever authorized by the MCO, rather than only on referral, (2) extending the fee-for-service reimbursement rate to other types of noncontracting providers in a hospital system, including physicians, and (3) eliminating the exemption that applies to any hospital that had a contract with at least one MCO before January 1, 2006, and has retained one such contract. Department of Rehabilitation and Correction		Main Operating Appropriations Bill		H. B. 1
Executive	As Passed by the House	As Passed by the Senate	As Enacted	
<p>Fiscal effect: The provision will likely reduce the number of felony theft offenders entering prison. DRC staff estimate that the change this provision will open up about 300 beds per year at an annual savings of approximately \$1.3 million. This provision will also have the effect of shifting some felony theft cases from the courts of common pleas to the municipal and county courts that hear misdemeanor cases. As misdemeanor cases are generally less expensive to process, there should be some savings, of uncertain magnitude, at the county level, and, in theory, a corresponding cost increase of processing theft cases at the municipal level. Presumably, counties and municipalities will incur additional costs to sanction these offenders who could no longer be sentenced to a prison term, some of which could be offset by the state community corrections funding distributed by DRC.</p>

1055 DRC - 6 Sentencing for "Nonsupport of Dependents"

R.C. 2919.21, 2929.17

Provides that if the offense of "nonsupport of dependents" that is committed by abandoning or failing to provide adequate support to the offender's child under 18 or mentally or physically handicapped child under 21 or to another person whom the offender is legally obligated to support by court order is a fourth or fifth degree felony, the court must sentence the offender to one or more community control sanctions; requires the court to include as a condition of any nonresidential sanction imposed that the offender participate in and complete a community corrections program if available in the county, unless the offender participated in such a program in the past three years.	No provision.	No provision.	No provision.
--	---------------	---------------	---------------

Fiscal effect: These provisions will expand current Community Correction Act (CCA) prison diversion non-support sanctioning options and create new sentencing alternatives. An allocation in the proposed budget of \$2 million would create programs to divert around 527 non-support offenders from prison into structured programs. The Department estimates this provision would save around \$2.3 million annually.

1056 DRC - 7 Changing the Definition of Detention

R.C. 2921.01

Removes from the definition of "detention" the supervision by an employee of the Department of Rehabilitation and Correction of a person on any type of release (e.g. parole or post-release control) from a state correctional institution, and makes the felony-level offense of escape inapplicable to a person on any type of release from a state correctional institution who purposely breaks, attempts to break, or fails to return to supervision by an employee of the Department under those circumstances.

Fiscal effect: This provision would reduce the number of offenders who abscond from supervision upon their release and subsequently face a felony charge of escape. The Adult Parole Authority already have various appropriate sanctions available under section 2967.15 of the Revised Code. DRC staff estimate the provision will open up around 591 beds each year, and produce an annual savings estimated at \$2.5 million.

Authorizes school districts levying current expense taxes with an aggregate effective tax rate exceeding 20 mills on residential/agricultural real property to convert that excess millage, with voter approval, to a single levy for a specified amount of money and for a term of up to 10 years or continuously. (The levy conversion would have the effect of suspending future application of the "H.B. 920" tax reduction on the remaining 20 mills for so long as the district does not impose additional current expense millage for other than a fixed amount of money -- i.e., new millage other than an "emergency" levy or a renewal of the conversion levy.)	Same as the Executive, but specifies that a school district conversion levy applies to the tax year in which voters approve it and authorizes voters to repeal a conversion levy that originally was imposed for a continuing period of time. Specifies that, if a conversion levy is repealed, reimbursement based on passage of the levy is terminated.	Same as the House, but requires a conversion levy and a renewal of a conversion levy to be proposed only at a primary or general election.	Same as the Senate.
Requires the state to reimburse a school district levying a conversion tax for the amount of tax revenue lost from nonresidential/agricultural real property and public utility personal property due to the conversion. Corrects a technical error in a provision providing for continued tangible personal property tax reimbursement for a qualifying school district fixed-sum levy if the levy is replaced with a "substitute" levy defined in section 5705.199 of the Revised Code.		
Authorizes school boards to propose conversion levies for four years (2010 through 2013). Specifies that the conversion levy must raise the same amount of revenue (from Class I property) as was raised from the levies being replaced.	Same as the Executive, but extends the period during which school boards may propose conversion levies to five years (2010 through 2014). Authorizes a school board eligible to impose a conversion levy under the bill to propose that the levy raise a smaller amount (from Class I property) than the levies that the conversion levy would replace. Specifies that, if the school board chooses to levy a smaller amount, it will not receive additional compensation for the nonresidential/agricultural real property and public utility tangible personal property losses incurred by a smaller conversion levy.	Same as the House, but authorizes a school board eligible to impose a conversion levy under the bill to impose that levy (with voter approval) in any year after 2009 rather than limiting the authority to the five year period specified in the House version. No provision.	Reimburses 100% of revenue losses of local taxing units other than school districts due to the phase-out of general business tangible personal property taxes through the state's fiscal year 2011 (does not affect school districts which under current law are held harmless through FY 2011). 	Fiscal effect: Increases the payments to be made to units of local government by May 31, 2011, from fourteen-seventeenths of one-seventh of the losses to 100% of one-seventh of the losses. Adds \$11,200,000 to the appropriation to line item 110981 in FY 2011 to pay these additional costs. Reduces funds available to the GRF because the source of funding for appropriation line item 110981, in fund 7081, is the commercial activity tax; shortfalls in CAT revenues from amounts needed to reimburse school districts and other units of local government are transferred from the GRF; and through FY 2011 CAT revenues in excess of amounts needed are transferred to the GRF.	Fiscal effect: Same as the House through FY 2011, except shifts 0.9659% or 1.1159% (depending on county tax collections in 2004) of the additional reimbursement in FY 2011 from other units of local government to county treasurers and auditors. For FY 2012 and thereafter, cost to the state to reimburse local governments is estimated in the hundreds of millions of dollars.	Fiscal effect: Same as the Senate.

Kilowatt-hour and Natural Gas Consumption Taxes

1146 TAX - 62 Kilowatt Hour Tax: Self-Assessing Purchasers

No provision.

No provision.

No provision.

R.C. 5727.81

Modifies the computation for determining the tax liability of a commercial or industrial purchaser electing to self-assess the Kilowatt Hour Tax, beginning January 1, 2011, from one based on both a per-kilowatt hour rate and a percentage of the price paid, to one based solely on a per-kilowatt hour rate.

Department of Taxation		Main Operating Appropriations Bill		H. B. 1
Executive	As Passed by the House	As Passed by the Senate	As Enacted	
			<p>Fiscal effect: The impact of the provision will approximately be revenue neutral, based on FY 2008 kilowatt hour (kWh) tax data. Actual impact of this provision in any future years would depend on the actual electric prices and consumption. Very large electricity customers, specifically those that use more than 45 million kilowatt hours (kWhs) of electricity per year, are permitted to self assess this tax under current law. Self-assessors currently pay a tax of \$0.00075 per kWh for the first 504 million kWhs used during a year, plus 3.5% of the "total price" of electricity used. The definition of total price for this purpose is, generally speaking, the total amount spent by a user for electricity. Beginning with the meter reading period that includes January 1, 2011, this provision would change the self-assessors' tax to \$0.00257 per kWh for the first 500 million kWhs per year, plus \$0.001832 per kWh for each kWh in excess of 500 million.</p>

		<p>Fiscal effect: Currently, for natural gas distributors with more than 50,000 customers, the tax rate varies according to the volume distributed to each customer (a lower rate on higher volumes), so aggregating all customer volumes for distributors with 70,000 or fewer customers reduces the total tax due. LSC does not have an estimate at this time of the amount of this tax loss. Revenues from the natural gas distribution tax are distributed to the School District Property Tax Replacement Fund (Fund 7053), which receives 68.7% of the revenues, and to the Local Government Property Tax Replacement Fund (Fund 7054), which receives 31.3% of the revenues. If amounts in these funds are insufficient to make payments required under R.C. 5727.85 and 5727.86, the difference is to be transferred from the General Revenue Fund.</p>	Fiscal effect: Same as the Senate.

Increases the licensing fees for the sale of tobacco products to the following levels: (1) \$1,000 (up from \$200) for the annual fee for the wholesale of cigarettes; (2) \$125 (up from \$30) for the annual fee for retail sales of cigarettes; (3) \$1,000 (up from \$100) for the annual fee for the sale of tobacco products other than cigarettes. Authorizes cigarette retail licenses to be used at an unlimited number of places of business, instead of on a per-place basis, but prohibits a wholesale or retail licensee to assign the license to another person.	Same as the Executive, but requires that the proposed license fees for retailers and wholesalers be paid for each place of business instead of all places of business. No provision.		No provision.	No provision.	R.C. 166.11 Provides that any amounts received by the state as part of the federal Build America bond program are not to be included when determining the annual \$63 million debt service limit on the repayment of certain obligations with profits from the sale of spirituous liquor. Fiscal effect: Generally, the Build America Bond and and Recovery Zone Economic Development Bond programs, which were created under the American Recovery and Reinvestment Act of 2009, allow state and local governments to issue bonds in 2009 and 2010 to pay for capital expenditures and receive a federal subsidy or credit for a portion of their borrowing costs. Therefore, any bond issuance made under the federal program would reduce the state's debt service expenditures from liquor profits, which would thereby increase the total amount of bonds issued that are backed by liquor profits. This provision would prevent new bond issuance that would have the effect of allowing debt service paid from liquor profits from exceeding the current maximum aggregate level of debt service expenditures, up to \$63 million per fiscal year.
