Ohio Medical Transportation Board

- The Board was merged with EMS in the Department of Public Safety under the transportation budget

OVERVIEW

Duties and Responsibilities

The Ohio Medical Transportation Board was charged with administering and enforcing the state's ambulance, ambulette (wheelchair van), and air ambulance licensing programs. This regulatory authority covered all private, hospital-based commercial ambulances, ambulettes, mobile intensive care units (MoICUs), medical helicopters, and fixed wing medical aircraft operating within the boundaries of the state of Ohio. The Board regulated more than 470 ambulette and air medical service providers, nearly 3,500 medical transport and nontransport vehicles, and nearly 750 total service locations.

Appropriation Overview

The Board was merged with the Department of Public Safety, effective July 1, 2013, as part of Am. Sub. H.B. 51, the transportation budget bill. As a result, the duties and the appropriation for the Board have been transferred to the Emergency Medical Services Board (EMS) within Public Safety.
