DENCD1 Application of Sealants and Administration of Fluoride by Certain Dental Professionals through a School-based Program

Executive	As Passed by the House	As Passed by the Senate	As Enacted
No provision.	No provision.	R.C. 4715.22, 3701.138, 4715.39, 4715.64 Specifies that the requirement for a dentist to perform an examination and diagnose a patient prior to the patient receiving dental hygienist services does not apply when the services to be provided are the placement of pit and fissure sealants or when a dental hygiene administers fluoride mouth rinse to students through the school-based fluoride mouth rinse program that the Director of Health may establish.	R.C. 4715.22 Same as the Senate, but excludes the provision that would authorize a dental hygienist, without a dentist first performing an examination and diagnosing the patient, to administer fluoride mouth rinse to a student in a school-based fluoride mouth rinse program established by the Director of Health.
No provision.	No provision.	Authorizes the Director to determine that certified dental assistants or expanded function dental auxiliaries, or both, may do the following without a dentist being physically present or a dentist examining a patient prior to the service: (1) apply pit and fissure sealants, (2) administer fluoride mouth rinse to a student who receives services under any school-based fluoride mouth rinse program established by the Director, or (3) provide both services.	No provision.
No provision.	No provision.	Specifies in the laws governing dental professionals that a certified dental assistant or expanded function dental auxiliary is authorized to perform those services if the Director makes the applicable determinations, described above.	No provision.
