Fiscal effect: If a Compact were established and Ohio were part of the Compact, the state would pay the annual dues established. If a prize is awarded, the state would be required to annually pay its actual one-year savings in public health expenses until it fulfilled its responsibility. The amount would depend on the disease cured and the public health expenditures related to the disease. However, the state would realize an offsetting reduction in expenditures for providing services to manage the disease or its symptoms. These savings would continue after the state's prize responsibility is met. Royalty revenues collected by the Commission could be used to, among other things, pay or reimburse for expenses related to the payment of the prize.

Same as the House.

No provision.

[\*\*\*VETOED: Requires that certain health care providers and health plan issuers provide to patients or their representatives a cost estimate for nonemergency health care products, services, or procedures before each is provided. Enumerates certain information that must be included in a cost estimate. Clarifies what is to occur with the provision of a cost estimate when specific information (such as the provider who will be providing the health care product, service, or procedure) is not readily available at the time the appointment for the product, service, or procedure is made. Specifies that on and after March 1, 2020, the requirement applies to all other health care providers.\*\*\*]

Replaces the House provision with a provision that requires a hospital, beginning January 1, 2020, and on the request of a patient or the patient's representative, to provide a patient with a verbal or written cost estimate for scheduled services. Specifies that the requirement does not apply if the patient is insured and the patient's health plan issuer fails to supply the necessary information to the hospital within 48 hours of the hospital's request. Enumerates certain information that must be included in a cost estimate. Requires a health plan issuer to provide to its covered persons estimates of the costs of health care services and procedures to at least the same extent it is required to do so by federal law, and prohibits the Superintendent of Insurance from enforcing this requirement.

Fiscal effect: The requirement that the Department of Insurance create or procure a connector portal would increase the Department's costs by an uncertain amount. Any increase in such costs would be paid from Fund 5540. Administrative costs for the departments of Insurance, Health, and Medicaid, and other regulatory boards may increase due to regulatory need to monitor compliance by health plan issuers and health care providers. Potential reduction in costs to state and local public employee benefit plans and the Medicaid program due to potential increase in consumers shopping for lower prices for medical services; if there are any such reductions, the magnitude is uncertain.

<p>Fiscal effect: Eliminating the Medicare market-basket index from the calculation of nursing facility per diem rates will decrease GRF spending by \$74.8 million (\$27.7 million state share) in FY 2020 and by \$164.8 million (\$61.0 million state share) in FY 2021.</p>	<p>Fiscal effect: Increases appropriations by a total of approximately \$74.8 million in FY 2020 and \$77.0 million in FY 2021 across various line items, which breaks down as follows: GRF line item 651525, Medicaid Health Care Services, \$62.7 million (\$23.2 million state share) in FY 2020 and \$64.5 million (\$23.9 million state share) in FY 2021; DPF Fund 5R20 line item 651608, Medicaid Services - Long Term, by \$4.5 million in FY 2020 and \$4.6 million in FY 2021; and FED Fund 3F00 line item 651623, Medicaid Services - Federal, \$7.6 million in FY 2020 and \$7.9 million in FY 2021.</p>	<p>Fiscal effect: Same as the House, but makes the following appropriation changes to account for the Senate changes: decreases GRF line item 651525 by \$37.4 million (\$13.9 million state share) in FY 2020 and increases it by \$73.6 million (\$27.2 million state share) in FY 2021; and increases DPF Fund 5R20 line item 651508 by \$5.3 million in FY 2021 and FED Fund 3F00 line item 651623 by \$9.0 million in FY 2021. **PUCCD1 Nuclear electric facility assessment**

**R.C. 4937.05, 4937.01**

Attempts to maintain the Utility Radiological Safety Board's (URSB) ability to make assessments against nuclear electric utilities after they stop producing electricity, by granting URSB authority to make assessments against those utilities based upon the utility decommissioning budgets.

Adds to the definition of "nuclear electric utility" under URSB law persons engaged in the storage of spent nuclear fuel arising from the production of electricity using nuclear energy.

**Fiscal effect: Attempts to keep the URSB funded up to a maximum annual level of \$2.9 million, as specified in Section 514.10 of the bill, but actual outcomes will depend on whether the U.S. Nuclear Regulatory Commission regards URSB funding as an allowable use of nuclear decommissioning trust fund assets. The provision is only applicable if one or both of Ohio's two nuclear electric facilities ceases operations. FirstEnergy previously announced its Davis-Besse Nuclear Power Station in Oak Harbor will close by May 31, 2020, and its Perry Nuclear Power Plant in Perry will close by May 31, 2021.**
