## Board of Commissioners of the Sinking Fund

---

### Quick look...

- Members of the Board of Commissioners of the Sinking Fund (CSF) include the Governor, the Treasurer of State (TOS), the Auditor of State, the Secretary of State, and the Attorney General.
- All moneys appropriated to the Board are used to make principal and interest payments on general obligation (G.O.) bonds issued by the state.
  - All but one debt service fund appropriation item included in the Board’s budget has a corresponding GRF debt service appropriation item.
  - One line item is paid via transfer from the Gasoline Excise Tax Fund.
- The Board is not currently active and has no authority to issue debt. It met on March 19, 2008 for the last time.
  - The Board was responsible for issuing and “sinking” (i.e., paying off) G.O. bonds for various purposes and producing semiannual activity reports.
  - H.B. 640 of the 123<sup>rd</sup> General Assembly transferred the authority to issue G.O. debt, effective January 1, 2001, from the Board to the Ohio Public Facilities Commission (OPFC) and TOS.
  - The Office of Debt Management within TOS currently administers debt payments for the state and reports its activities semiannually to the Governor and the General Assembly; funding for these functions is provided under the TOS budget.

### Agency overview

The Board of Commissioners of the Sinking Fund (CSF) consists of five members. The Auditor of State serves as the president of the Board and the Secretary of State serves as the secretary. The Governor, the Treasurer of State, and the Attorney General are the remaining three members. The Sinking Fund has no employees and receives no operating funds. Operational support is provided by TOS employees, which was previously funded via GRF line item 090401 in the TOS operating budget; that line item is discontinued in the enacted budget. Operational support will continue to be provided by TOS employees, but funding is provided via multiple line items instead of a dedicated line item.

CSF administer debt service payments and other expenses related to the state’s general obligation debt, which can be issued for the following purposes: acquisition of land, construction of and capital improvements for buildings and structures, development of recreational trails, and

compensation to eligible individuals who have served in active duty in the United States armed forces at any time during the Persian Gulf, Afghanistan, and Iraq conflicts.

When debt is authorized by legislative action, the authorizing act will establish the particular fund to which bond sale proceeds are to be deposited, depending on the usage of funds as specified in Article VIII of the Ohio Constitution. The Board tracks debt balances and payment schedules, and manages the G.O. debt load in the long-term interest of the state. In most cases, CSF certify the amounts necessary to pay debt service to the Director of the Office of Budget and Management (OBM), then receive transfers of a certified amount with which to pay debt service. The Board is also required under the Ohio Constitution and Revised Code to prepare and publish a semiannual report, which includes financial statements of the state's G.O. bonds and debt service requirements.

The Board is no longer authorized to issue debt. Currently, only TOS and OPFC have the authority to issue state debt. OBM also performs various debt management functions pursuant to section 126.11 of the Revised Code, including managing proposed issuances of new state debt.

## **Analysis of FY 2024-FY 2025 budget**

The total appropriations for CSF in FY 2024 are \$1.13 billion, a 13.6% decrease from FY 2023 actual expenditures. Total appropriations in FY 2025 are \$1.05 billion, 7.4% lower than the total appropriations in FY 2024. The entirety of CSF appropriations are used to make debt service payments. Uncodified language in H.B. 33 specifies that amounts over and above these dollar amounts are appropriated, if needed, to pay required debt service on the bonds. H.B. 33 also eliminates many of the procedures for payment on bonded debt, but does not change the requirement to pay the bonded debt. Decreases in appropriations for the FY 2024-FY 2025 biennium are largely due to GRF cash transfers replacing new debt issuance. H.B. 687 of the 134<sup>th</sup> General Assembly (the capital budget for FY 2023-FY 2024) authorized OBM to transfer up to \$1.5 billion from the GRF to various funds that support capital appropriations, to be used as a replacement for issuing bonds to pay for certain capital projects.

The remainder of this section briefly discusses appropriations for each line item in the Board's budget. Appropriations to pay debt service by purpose is provided in the following tables. Eight of the nine line items<sup>1</sup> in the CSF budget have corresponding GRF line items which serve as the ultimate source of funding for the debt service payments; the GRF line items are found in the budgets of various other state agencies. In each table, the bottom line presents the GRF line item from which funds are transferred, and the top line presents the non-GRF, CSF account utilized to pay debt service on the bonds. Amounts listed in the CSF line items are very close to the amounts in the GRF line items that correspond to them, and often are identical, but there are differences. Most such differences are small and due to balances carried over in the CSF fund.

---

<sup>1</sup> Previous budgets funded a tenth line item in the CSF budget, ALI 155912, Job Ready Site Development Bond Retirement Fund. Those bonds have been paid off, so the line item is not funded in H.B. 33.
