Army National Guard Service Contract Fund	\$72,168,546
Administrative Building Fund	\$26,022,598
<b>TOTAL - All Funds</b>	<b>\$98,191,144</b>

**ARMY NATIONAL GUARD SERVICE CONTRACT FUND (3420)**

---

**C74537    Renovation Projects - Federal Share** **\$48,261,025**

*County:*    Statewide

These funds will be used to provide the federal share of repair, construction, and renovation projects at various facilities operated by the Adjutant General's Department that are eligible for a federal match under the Army National Guard Facilities Program. The Department currently maintains 44 operational readiness centers and a number of other facilities at the Camp Perry Training Site (Ottawa County) and the military complex at the Rickenbacker Air National Guard Base (Franklin County).

---

**C74539    Renovations and Improvements - Federal** **\$23,907,521**

*County:*    Statewide

These funds will be used for various renovation and improvement projects at facilities managed by the Adjutant General's Department that, per an agreement with the federal National Guard Bureau, are to be 100% federally funded. The priority projects include information systems, fire detection, water and storm infrastructure improvements, barracks design and construction, and HVAC improvements.

**ADMINISTRATIVE BUILDING FUND (7026)**

---

**C74528    Camp Perry Improvements** **\$2,500,000**

*County:*    Ottawa

These funds will be used for the continuation of a multi-phase project for the demolition and construction of several new buildings at the Camp Perry Joint Training Center. This phase will fund the demolition and replacement of several aged, unsafe buildings at Hough Grove and Commercial row.

---

**C74535    Renovations and Improvements** **\$23,522,598**

*County:*    Statewide

These funds will be used for repair, construction, and renovation projects at various facilities operated by the Adjutant General's Department. The federal share, if applicable, will be funded with money appropriated from the Army National Guard Service Contract Fund (Fund 3420) and capital line item C74537, Renovation Projects - Federal Share.

These funds will be used for improvements at the gun range located at the Ohio Peace Office Training Academy's (OPOTA) Tactical Training Center (TTC) in London. Projects include construction of (1) a covered shelter directly adjacent to the 125-yard outdoor gun range including electricity for ceiling fans and lighting to allow for nighttime use, and (2) a multi-level shooting platform on the 300-yard gun range for simulation of actual real-life situations law enforcement may experience. These projects are expected to be completed in one biennium as a single phase.

---

**C05537 Richfield Facility Renovations \$3,728,105**

*County:* Summit

These funds will be used for renovation projects at the Attorney General's Richfield facility that serves as a satellite location for the Bureau of Criminal Investigation (BCI) and the Ohio Peace Officer Training Academy (OPOTA). Projects include (1) conversion workspaces for use by BCI, as space needs for OPOTA have reduced while space needs for BCI have increased, and (2) replacement of the facility's asphalt parking lot. These projects are expected to be completed in one biennium as a single phase.

---

**C05539 London Bureau of Criminal Investigation, Ohio Police Officer Training Academy, Tactical Training Center Renovations \$3,000,000**

*County:* Madison

These funds will be used for renovation projects at various Attorney General facilities in London. Projects include (1) renovation of numerous sidewalks, curbs, and drain basins, (2) replacement of the employee parking area, dock area, and drive entrances, and (3) resurfacing the driving test track, training/skills pad at the Ohio Peace Officer Training Academy's Tactical Training Center. These projects are expected to be completed in one biennium as a single phase.

---

**C05542 BCI Laboratory Equipment \$1,163,311**

*County:* Statewide

These funds will be used for Bureau of Criminal Investigation (BCI) laboratory equipment, including highly precise and calibrated instruments used for qualitative drug analysis, DNA testing, and gunshot residue detection and identification.

**C70023 Building #22 OEPA Laboratory Equipment** **\$100,000**  
*County:* Licking

This appropriation will be used to purchase and replace laboratory equipment at the Environmental Protection Agency (EPA) facility located on the AGR campus. The funding will support the purchase of various instruments that are used to test for organic chemical contaminants in drinking water, air, and fish samples.

---

**C70024 Building #22 Renovation \$850,000**

*County:* Licking

This appropriation will support the investigation and remediation of humidity issues occurring at the Ohio Department of Health (ODH) facility co-located located on the AGR campus. The ODH facility performs newborn screening. This investigation is expected to last no more than three months and be followed by upgrades to the HVAC system.

---

**C70030 Agriculture Equipment \$1,520,000**

*County:* Licking

This line item will be used to support the purchase of two liquid mass spectrometers, two gas mass spectrometers, and various other devices used by the Plant Health Laboratory, as well as liquid volume testing equipment for the Division of Weights and Measures.

---

**C70033 Animal Disease Laboratory \$8,000,000**

*County:* Licking

This funding will be used to complete construction on a new Animal Disease Diagnostic Laboratory. The new facility, containing a Biosafety Level 3 containment site, microbiology labs, pathology facilities, and a central receiving core, among other features, would replace the existing laboratory that was built in 1961 and underwent renovations in 1985, 1999, and 2004. H.B. 687 of the 134th General Assembly provided \$71.7 million under Fund 5CV3 ALI C70031, Animal Disease Laboratory, for this purpose.

**CLEAN OHIO AGRICULTURAL EASEMENT FUND (7057)**

---

**C70009 Clean Ohio Agricultural Easement Fund \$12,500,000**

*County:* Statewide

This appropriation will be used to fund farmland preservation under the Local Agricultural Easement Purchase Program, part of Ohio's Clean Ohio Fund initiative. Under the program, the state provides up to 75% of the costs of purchasing agricultural easements from willing landowners. Local governments or conservation organizations provide the balance of the funds required to purchase the easement.

**Department of Higher Education**

**HIGHER EDUCATION IMPROVEMENT TAXABLE FUND (7024)**

---

**C23568 OARNET-Taxable \$13,500,000**

*County:* Statewide

These funds are used to support the OARnet network that interconnects Ohio's colleges and universities with each other as well as with national commercial and academic networks. Projects funded by this appropriation may include expanding OARnet's fiber optic cable network to over 5,500 miles and increasing the bandwidth of the core data routes (backbone) to support transmission speeds of one terabit per second. OARnet may also create a broadband research laboratory and next generation threat detection environment to support the system and users, expand its presence in the Cleveland area to centralize its disaster recovery site, and deploy the statewide Next Generation 911 network that will reach approximately 270 sites throughout Ohio.

---

**C23569 Research Facility Action and Investment Funds-Taxable \$500,000**

*County:* Statewide

These funds are used for a grant program that provides timely availability of capital funding for research programs and research-oriented instructional programs at or involving state-supported and state-assisted institutions of higher education. Specifically, the funds provide matching capital funds for equipment or facilities for research institutions seeking research grant awards from federal and other external entities. Ohio's research institutions include 13 public universities, one public university of medicine, Case Western Reserve University, and the University of Dayton. The capital commitment match from DHE ranges from at least \$60,000 to no more than \$3.0 million. Overall, the minimum total budget for a project must be at least \$250,000.

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C23501 Supercomputer Center Expansion \$3,500,000**

*County:* Franklin

These funds will support various projects at the Ohio Supercomputer Center (OSC), which is located at the Ohio State University. OSC provides faculty, students, and researchers at Ohio's public and private colleges and universities access to a statewide high-performance computing resource. Projects supported with these funds include installing a new supercomputer to support important emerging applications in artificial intelligence; upgrading servers, storage systems, and tape storage across two data centers to support the growing volume of data the system maintains; and, updating the network security hardware to support faster networks and larger amounts of network traffic to permit OSC better protections against external, malicious attacks against the systems.

---

<b>C23516</b>	<b>Ohio Library and Information Network</b>	<b>\$16,306,457</b>
---------------	---------------------------------------------	---------------------

*County:* Statewide

These funds primarily support the annual acquisition of the latest digital library content for the OhioLINK membership. Specifically, the funds subsidize the cost of high-quality electronic journal and database content that OhioLINK institutions rely on for research and training, with a large portion of the purchased content focusing on science, technology, engineering, mathematics, and medicine (STEMM) disciplines. OhioLINK subsidizes about 20% of the purchased content with capital funds, and the OhioLINK membership pays the remaining 80%.

---

<b>C23524</b>	<b>Library Depositories - Supplemental Renovations</b>	<b>\$944,068</b>
---------------	--------------------------------------------------------	------------------

*County:* Multi-county - Athens, Butler, Franklin, Portage, Wood

These funds support basic renovations at the five regional library depositories, which allow the largest university libraries to store less-used materials in off-site facilities. The original facilities are now nearly 30 years old and are in need of major and minor renovations and repairs such as window and wall repair, equipment repair and replacement, laptops and book scanners, and renovation of a metal façade for building exteriors. The facilities are located on the campuses of Bowling Green State University, Miami University, NEOMED, Ohio University, and the Ohio State University (OSU).

---

<b>C23529</b>	<b>Workforce Based Training and Equipment</b>	<b>\$8,000,000</b>
---------------	-----------------------------------------------	--------------------

*County:* Statewide

These funds will be used for the Regionally Aligned Priorities in Developing Skills (RAPIDS) program, the purpose of which is to support collaborative projects among higher education institutions to strengthen education and training opportunities that maximize workforce development efforts in defined areas of the state. The grants provide capital funds on a competitive basis to collaborations of community colleges, universities, private colleges and universities, and Ohio Technical Centers to address the business and economic development needs of the region. H.B. 33 of the 135th General Assembly provided \$100.0 million in FY 2024 from Fund 5AH1 ALI 235688, Super RAPIDS, which expanded RAPIDS beyond capital equipment and facilities to include training students and workers for specific workforce needs.

---

<b>C23530</b>	<b>Technology Initiatives</b>	<b>\$1,500,000</b>
---------------	-------------------------------	--------------------

*County:* Statewide

These funds are used for needed technology infrastructure improvements. Priority projects in the FY 2025 - FY 2026 biennium include data protection of database applications that can be secured in the event of a ransomware attack and the installation of a whole-building power supply that will prevent equipment failure during the time after there is a power outage and before a recently installed generator takes over the power supply.

---

<b>C23563</b>	<b>Ohio Cyber Range</b>	<b>\$7,162,660</b>
---------------	-------------------------	--------------------

*County:* Statewide

These funds will be used to support the Ohio Cyber Range, a collaboration of DHE, the Adjutant General, the Department of Administrative Services, other state agencies, and the Ohio Cyber Range Collaboration Committee that will support the state's efforts to improve its cyber security posture. The Ohio Cyber Range is a collection of servers and interface equipment linked together by OARnet that supports the education, training, and testing of cyber security students and professionals; provides a testing platform for computer programs and networks; and supports cyber security exercises and other initiatives. Specifically, these funds will be used to provide capital funding to colleges and universities so they can purchase equipment and improve their facilities to construct the Ohio Cyber Range. H.B. 529 provided \$1.0 million in this line item during the FY 2019 – FY 2020 biennium.

---

<b>C23566</b>	<b>Ohio College Safety and Security Grant Program</b>	<b>\$7,500,000</b>
---------------	-------------------------------------------------------	--------------------

*County:* Statewide

These funds will continue to be used to make competitive grants to state institutions of higher education for certain security improvements that assist the institutions in improving the overall physical security and safety of their buildings on public campuses throughout Ohio. Eligible security improvements under the program include physical security enhancements, equipment, or inspections and certain screening equipment included on a list published by the U.S. Department of Homeland Security. The program is administered by the Department of Public Safety, though the Department coordinates with DHE on program procedures and funding recommendations. DHE must seek Controlling Board approval prior to transferring the award to the institution. H.B. 687 provided \$5.0 million in the FY 2023 – FY 2024 biennium from item C23566, which supported projects at 33 of 37 public colleges and universities.

These funds will be used to improve critical mechanical and electrical infrastructure on the main campus. Other projects may include addressing deferred maintenance of the chilled water unit, the high temperature, hot water district heating system, and the electrical distribution system.

---

<b>C25097</b>	<b>Polsky Arts Center</b>	<b>\$6,000,000</b>
---------------	---------------------------	--------------------

*County:* Summit

These funds will be used to address aging elevator and HVAC systems and deferred maintenance as part of the transformation of the 411,000 square foot Polsky Building into the Knight Center for Creative Engagement. H.B. 687 provided \$4.5 million in state funding to renovate a portion of the first floor of the building. The total project cost is estimated to be about \$40.0 million, including about \$29.5 million from non-state sources.

---

<b>C250A2</b>	<b>IT Infrastructure</b>	<b>\$3,000,000</b>
---------------	--------------------------	--------------------

*County:* Summit

These funds will be used to upgrade wired and wireless network hardware, including firewalls, routers, switches, and wireless access points. The total project cost is estimated to be approximately \$5.0 million, with the remaining \$2.0 million to be requested for a second phase in the FY 2027-FY 2028 biennium.

<b>C24079</b>	<b>Critical Infrastructure Rehabilitation - Technology - Wired Network</b>	<b>\$6,000,000</b>
---------------	----------------------------------------------------------------------------	--------------------

*County:* Wood

These funds will be used for the third phase of a five-phase project to upgrade the main campus' technology infrastructure system, which was installed more than 20 years ago. In the FY 2025-FY 2026 biennium, the project will focus on upgrading technology infrastructure systems that support all campus network connectivity, Wi-Fi, and other critical network services used by all students, faculty, and staff.

---

**C24083 Technology Engineering Innovation Center \$8,000,000**

*County:* Wood

These funds will be used to renovate the existing Technology Building located on the main campus into the Technology Engineering Innovation Center. Specifically, the project will demolish the existing building's west wing and renovate the building's east wing, including installation of a new entrance in the southwest corner of east wing to accommodate possible additions to the east wing in future years. The project is expected to take at least two capital biennia to complete, with an estimated total project cost of \$47.8 million. The total cost includes about \$7.8 million from non-state resources.

---

**C24084 Academic Building Rehabilitation \$2,839,967**

*County:* Wood

These funds will be used to renovate academic buildings at BGU's main campus, especially those buildings with a focus on STEM programs. Most of these buildings have not had any major renovations since they opened from 50 to 90 year ago. A portion of the funds may also be used to address a backlog of deferred maintenance. BGU's goal is to strategically relocate and consolidate several programs into the renovated buildings and then demolish approximately 217,000 square feet of building space that is unsuitable to use or has excessive deferred maintenance costs. The project is expected to take at least three capital biennia to complete, with an estimated total project cost of \$126.5 million. The total cost includes about \$11.0 million from non-state resources.

<b>C25500</b>	<b>Basic Renovations</b>	<b>\$1,000,000</b>
<i>County:</i>	Multi-county - Greene, Montgomery	

These funds will be used for basic renovations and deferred maintenance across campus. Priority projects for the FY 2025-FY 2026 biennium will repair and renovate elevators and restrooms and address ADA concerns in the Jenkins, Joshua I. Smith, McLin, and Newsom buildings on the main campus and certain buildings on the Dayton campus.

---

<b>C25515</b>	<b>Information Technology Network and Infrastructure</b>	<b>\$800,000</b>
<i>County:</i>	Multi-county - Greene, Montgomery	

These funds will be used to reroute reception and delivery data warehousing and upgrade the campus' networking core, which has reached end-of-life status. Funds may also be used to update classrooms and laboratories to shape the way faculty and students interact in new spaces to emphasize digital access and flexible, collaborative thinking and engagement.

---

<b>C25527</b>	<b>HVAC: Upgrades and Improvements</b>	<b>\$1,270,248</b>
<i>County:</i>	Multi-county - Greene, Montgomery	

These funds will be used to replace or upgrade chillers and cooling towers at the Beacom/Walker, Jenkins, Louis Stokes, McLin, and Simpson buildings on the main campus and buildings on the Dayton campus. The current systems are inefficient and past their useful service lives. H.B. 687 provided \$600,000 for these same projects in other campus buildings during the FY 2023-FY 2024 biennium.

---

<b>C25538</b>	<b>Sewer Line and Water Tower Maintenance and Rehabilitation</b>	<b>\$750,000</b>
<i>County:</i>	Greene	

These funds will be used to replace over five miles of underground water lines beneath the main campus. These lines have reached the end of their useful lives. There have been several water main breaks and road issues as a result of the breaking pipes over the last four years. Funds may also be used to upgrade the booster station with new electrical services and modernized controls and repair sump pumps and drainage pipes.

<b>C266C7</b>	<b>Old Chemistry Rehabilitation</b>	<b>\$41,151,829</b>
<i>County:</i>	Hamilton	

These funds will be used for the ongoing renovation of approximately 63,000 gross square feet of original space in the 1917 Old Chemistry Building and demolition of the 1930's addition space to be replaced with a new 152,000 gross square foot multi-purpose space. Together, the new space will have a combined 215,000 gross square feet for academic purposes. Specific projects include replacing outdated chemistry research laboratories and faculty and departmental offices in adjacent Crosley Tower with new modern open-bay laboratories and new office spaces, respectively, building new modern classroom space with capacity and configuration-flexibility to support enrollment changes and improve room utilization, and building new modern basic science, biology, chemistry, and anatomy and physiology teaching laboratories to meet current and future demands. The project received state funding of more than \$29.0 million in the FY 2023-FY 2024 biennium. The total project cost is estimated to be approximately \$190.0 million, with approximately \$70.2 million supported by state appropriations and the remainder coming from approximately \$110.0 million in debt and \$5.0 million in local funding sources.

<b>C260A8</b>	<b>Mechanical, Electrical, Plumbing Improvements</b>	<b>\$10,500,000</b>
<i>County:</i>	Cuyahoga	

These funds will be used for the first phase of a three-phase project to improve the overall efficiency and reliability of the campus' HVAC, plumbing, and electrical systems. Most of these systems have reached severe levels of deterioration in recent years. The project will improve system reliability and reduce maintenance costs by replacing obsolete equipment that has frequent breakdowns and disrupts the campus' operations. The total cost of the project is expected to be approximately \$45.5 million.

---

<b>C260A9</b>	<b>Campus-Wide Building Envelopes Rehabilitation and Stabilization</b>	<b>\$4,000,000</b>
<i>County:</i>	Cuyahoga	

These funds will be used for the first phase of a three-phase project to address and repair building envelope issues across campus, specifically those involving deteriorating roofing systems, windows, doors, and exterior walls. The project will focus on building envelope issues in Fenn Hall, the Science and Research building, and the Law Library. The total cost of the project is expected to be approximately \$25.0 million.

---

<b>C260B1</b>	<b>Life Safety, IT, and Security Projects</b>	<b>\$1,279,731</b>
<i>County:</i>	Cuyahoga	

These funds will be used for the first phase of a three-phase project to implement a comprehensive campus-wide life safety and security program to create a safer and more secure environment for faculty, staff, and students. Specifically, the project includes (1) installation of state-of-the-art security cameras across the campus, covering key areas such as entrances, parking lots, and common spaces; (2) expansion of the existing access control systems to regulate entry and exit points, providing authorized personnel with key cards or biometric access, enhancing building security, and reducing unauthorized access; and (3) replacing exterior doors to ensure handicapped accessibility and limit unwarranted intrusion. The total cost of these projects is expected to be approximately \$4.8 million.

<b>C270I5</b>	<b>White Hall Rehabilitation - Kent</b>	<b>\$10,000,000</b>
<i>County:</i>	Portage	

These funds will be used for the second phase of a four-phase project to replace the HVAC system in the 130,000 square foot White Hall, which was constructed in 1966 and houses KSU's College of Education, Health, and Human Services. A new four-pipe system will remedy the inefficient, old two-pipe system and new ductwork chases will be inserted through the floor levels to provide for air distribution. In the FY 2025-FY 2026 biennium, work will continue to replace outdated HVAC equipment with a modern variable air volume HVAC system. S.B. 310 provided \$12.0 million for the first phase of the project that focused on renovating main control systems and ductwork throughout the building to provide for air distribution.

---

<b>C270K3</b>	<b>Critical Deferred Maintenance - Kent</b>	<b>\$3,600,000</b>
<i>County:</i>	Portage	

These funds will be used to address deferred maintenance in several buildings across KSU's main campus, most of which were constructed in the 1960s and 1970s. In the FY 2025-FY 2026 biennium, the main use of these funds will be to renovate or replace original infrastructure in several buildings on campus.

---

<b>C270N2</b>	<b>IT Network Access Enhancement in Academic Buildings - Kent</b>	<b>\$3,592,474</b>
<i>County:</i>	Portage	

These funds will be used for the second phase of a multi-phase project to expand and update KSU's wireless network in academic spaces to provide adequate network coverage to instructors and students, enable streaming and video conferencing at scale, and provide a secure and user-friendly method of engaging with network access devices. This second phase will continue to address buildings that have the most volatile and oldest equipment with a focus on buildings that are highly populated and used and those that serve as testing and technology training areas. H.B. 687 provided approximately \$3.6 million for the first phase of the project.

---

**C27005 University Library Tower Renovations and Elevator Modernization-Kent \$6,000,000**

*County:* Portage

These funds will be used for the first of a multi-phase project to renovate and modernize the Main University Library, which was constructed in the 1960s and designed to house KSU's collection, offices, and archives. In 2010, KSU hired a consulting firm to create a masterplan to modernize the building. The masterplan has since been updated to account for projects that have been conducted over the last decade that enhance the experience in the building for students, faculty, and visitors. The renovations will build on these prior improvements. Additionally, the elevator system, which is original to the building, will also be modernized and include a new high-speed elevator.

---

**C27006 Elevator Modernizations for Accessibility-Kent \$4,000,000**

*County:* Portage

These funds will be used for the first of a multi-phase project to modernize elevators in certain buildings across the main campus to comply with the American with Disabilities Act (ADA) and various building code and life safety regulations. Many of the buildings on KSU's main campus were constructed in the 1960s and 1970s, prior to the ADA, and do not have fully ADA-compliant elevators, stairs, ramps, restrooms, and lecture halls. This project follows a comprehensive Kent Campus Elevator Modernization Study that was conducted in 2022.

**C27009 Main Hall Entrance Renovation-Ashtabula \$163,098**

*County:* Ashtabula

These funds will be used to build a new main entry point that will connect the three wings of the 1965 constructed Main Hall located on the Ashtabula campus. Currently, each of the three wings in the 109,000 square foot building have their own entrances which can be confusing for visitors and can be difficult for campus wayfinding strategies. The newly configured entry point for the building will allow visitors, students, faculty, administration, staff, and safety services to enter the building through a singular main access point.

---

<b>C27007</b>	<b>Central Chiller Plant Replacement-Stark</b>	<b>\$652,392</b>
---------------	------------------------------------------------	------------------

*County:* Stark

These funds will be used to replace the over 20-year-old chilled water system in the Campus Center Building located on the Stark campus. The system contains two 300-ton chillers and one 400-ton chiller, each with an equivalent sized cooling tower. The existing system is beyond its useful service life and has become increasingly difficult to maintain. In the FY 2025-FY 2026 biennium, approximately \$1.5 million will support this project, including \$800,000 in local funds.

**C28528 Bachelor Hall Renovation \$23,107,620**

*County:* Butler

These funds will be used for the second of a multi-phase project to renovate Bachelor Hall into modern instructional spaces. Approximately 7,000 students take classes in Bachelors Hall every academic year, or about 38% of MUN's enrollment. All programs offered at MUN will be impacted as undergraduate students from every major offered at MUN take a course in Bachelor Hall. Bachelor Hall will also host the Humanities Center. Classrooms will be updated with flexible, active seating ability permitting modern teaching methods. The lecture hall will be renovated to host classes and public events sponsored by the Humanities Center. H.B. 687 provided \$22.3 million for the first phase of the project in the FY 2023-FY 2024 biennium. The total cost of the project is approximately \$72.2 million, including approximately \$17.2 million in local funds.

**C30556 Replace Roof Building CC \$400,000**

*County:* Portage

These funds will be used to replace the roof on the 2002-constructed CC building, which houses NEOMED's largest learning center (Great Hall) and the South Corridor area consisting of Bitonte Atrium, the Training Room, the Technology Support Center, Internal Medicine administrative offices, and restrooms. The existing double-layered roof has exceeded its useful life and requires costly, ongoing maintenance to keep it from leaking. The total cost of the project is \$500,000, with the balance of the project supported by NEOMED's local funds.

---

**C30557 Replace Lab Make-Up Air Units Buildings C and E \$900,000**

*County:* Portage

These funds will be used to replace the original laboratory make-up air handling systems in the 1970s-constructed C and E buildings on campus. These systems service multiple academic and research laboratory spaces in the two buildings. The systems are in decline and have been in service for over 45 years, which far exceeds the normal useful life of these systems. This project follows the replacement of the make-up air handling system in D building in 2022. The total cost of the project is \$1.2 million, with the balance of the project supported by NEOMED's local funds.

---

**C30558 C and E Building Roof Replacement \$286,087**

*County:* Portage

These funds will be used to replace the roof on the 1975-constructed C building, which houses research, faculty offices, and NEOMED's advancement, development, marketing, and public relations departments. The roof had one overlay project completed in the mid-1990's, while the original roof underneath is nearly 50 years old. The roof has exceeded its useful life and is leaking. The project may also include a roof project on the corridor connecting buildings E and F.

---

**C315DM Roof Repair and Replacements \$8,500,000**

*County:* Franklin

These funds will be used for the complete replacement of roofing systems at Scott Laboratory, Parks Hall, Independence Hall, and the Physical Activity and Education Services Building that have exceeded their useful life spans.

---

**C315DN Fire System Replacements \$2,500,000**

*County:* Franklin

These funds will be used to replace fire systems at Tzagournis Medical Research Facility and Graves Hall. The systems are beyond their expected useful life spans and replacement parts are no longer available.

---

**C315DP HVAC Repair and Replacements** **\$7,200,000**

*County:* Franklin

These funds will be used to replace multiple failing HVAC systems, primarily at Hayes Hall, Knowlton Hall, the Physical Activity and Education Services Building, Aronoff Laboratory, Mershon Center, Biological Sciences Building, Scott Laboratory, Riffe Building, Mason Hall, the Animal Sciences Building, and Hopkins Hall. The systems are beyond their expected useful life spans and replacement parts are no longer available.

---

**C315DQ Elevator Safety Repairs and Replacements** **\$7,566,467**

*County:* Franklin

These funds will support the replacement of multiple failing elevator components at several buildings across campus, including the Biological Sciences Building, Wiseman Hall, Pressey Hall, and the 18th Avenue Library.

---

**C315DR Infrastructure Improvements** **\$19,300,000**

*County:* Franklin

These funds will be used to rehabilitate deteriorated drainage and tunnel ceilings and replace domestic cold-water lines, storm water lines, and sanitary sewer lines across campus.

---

**C315DS Building Envelope Repair** **\$7,000,000**

*County:* Franklin

These funds will be used to replace the building envelopes on multiple buildings across campus, including the Biological Sciences Building and Mershon Center. The systems have exceeded their useful life spans and are becoming more expensive to repair.

---

**C315DU Road and Bridge Improvements** **\$250,000**

*County:* Franklin

These funds will support the rehabilitation of deteriorated drainage, driving surfaces, and curbs on the road by Sherman Studio Arts Center.

---

**C315FD Electrical Repairs** **\$4,400,000**

*County:* Franklin

These funds will be used to replace electrical systems in several buildings across campus. Campus buildings may include: Smith Laboratory, Scott Hall, Oxley Hall, Drinko Hall, Enarson Classroom, Cockins Hall, Prior Hall, Kottman Hall, Wiseman Hall, Dulles Hall, Animal Sciences Building, Hitchcock Hall, and Bolz Hall.

---

**C315JO Evans Lab Partial Demolition (1969 Addition) \$2,400,000**

*County:* Franklin

These funds will be used to demolish the 1969 addition of Evans Laboratory, accounting for 24% of the building's total 117,500 square feet. The demolition of this portion of the facility will eliminate approximately \$9.5 million in deferred maintenance liability. The remaining portions of Evans Laboratory will be demolished and replaced in future phases in order to accommodate a replacement facility that can support modern teaching and research. Phase one of the new facility will serve the Biochemistry program.

---

**C315JP Chiller/Tower Renewal \$1,600,000**

*County:* Franklin

These funds will be used to renew failing building chillers and chiller tower systems in Graves Hall, Hopkins Hall, Aronoff Laboratory, and Hagerty Hall. Additional buildings will be added to the project if a favorable bid climate allows.

---

<b>C315JS</b>	<b>Galvin Hall Phase 2-Lima</b>	<b>\$900,000</b>
<i>County:</i>	Allen	

These funds will be used to renovate the lobby, second, and third floors in Galvin Hall, which was built in 1965. Specifically, this project will address a number of issues within the building, including renovating classrooms and office space and remediation of asbestos-containing materials. This project is the second of several phases to renovate the entire building. H.B. 687 provided \$1.1 million in line item C315IE, Galvin Hall Renovation – Lima, for lobby and second floor renovations for the FY 2023-FY 2024 capital biennium.

---

<b>C315JT</b>	<b>Reed Hall Theatre Ceiling Repair and Replacement-Lima</b>	<b>\$127,000</b>
<i>County:</i>	Allen	

These funds will be used to renovate the theatre ceiling in Reed Hall. Specifically, this project will remediate asbestos-containing materials and renovate the ceiling with new drywall and lighting. H.B. 687 provided \$340,000 in line item C315IF, Reed Hall Theatre Renovation – Lima, for the renovation to the theatre ceiling in Reed Hall for the FY 2023-FY 2024 capital biennium. However, bids for the project came in 50% higher than what was allocated for it, and the project was delayed.

*County:* Licking

These funds will be used to replace the original 1990 chiller (refurbished in 2014), pumps, and other equipment associated with the cooling system and replace or refurbish the cooling tower in LeFevre Hall. Central Ohio Technical College will also provide funds for this

---

**C315KB Pavement Improvements-Newark \$250,000**

*County:* Licking

These funds will be used to address deferred maintenance of the parking lots and roadways on the campus. Central Ohio Technical College will also provide funds for this project.

---

**C315KC Hopewell/Adena Faculty Office Renovations-Newark \$250,000**

*County:* Licking

These funds will be used to renovate approximately 50 faculty offices located in Hopewell Hall and Adena Hall. Projects may include replacing finishes (flooring, ceiling, paint), and purchasing new furniture. Central Ohio Technical College will also provide funds for this project. Previous appropriations for Hopewell Hall renovations include \$275,000 in S.B. 310 in line item C315HJ, Hopewell Hall Improvements.

---

**C315KD New Campus Entrance-Newark** **\$750,000**  
*County:* Licking

These funds will be used for a new access road to create a southwest entrance point onto campus. Central Ohio Technical College will also provide funds for this project.

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C315HM Fisher Hall Renovation-Wooster** **\$6,000,000**  
*County:* Wayne

These funds will be used to renovate and expand the 1968-constructed Fisher Auditorium, and possibly the Shisler Conference Center, to include space for teaching and outreach functions, a combined campus library, and various student support services. The project will also improve mechanical, electrical, and plumbing components that are in poor condition. In addition, the project, when completed, will permit the relocation of programs from Halterman and Skou Halls, which OSU reports are the worst-conditioned facilities on campus. S.B. 310 provided \$6.0 million in this line item for the FY 2021-FY 2022 capital biennium. A portion of that funding was used for design for this project and a portion was redirected to address the imminent failure of a campus boiler.

**(OHU) Ohio University - Main**

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C30075 Infrastructure Improvements** **\$4,300,000**  
*County:* Athens

These funds will be used for a multi-phase project to replace aging or failed steam system components in OHU's main campus steam system distribution network. Due to the system's size, incremental replacements are made each year. In the FY 2025-FY 2026 biennium, OHU will use these funds to expand Chilled Water Plant 3 for infrastructure growth and replace outdated campus distribution chillers that are reaching the end of their useful life. Future work will include continuing OHU's annual steam system replacements.

---

**C30136 Building Envelope Restorations** **\$1,400,000**  
*County:* Athens

These funds will be used to replace single-pane windows on the 1931-constructed Chubb Hall located on OHU's main campus. Chubb Hall was last renovated in 1970. H.B. 687 provided \$1.2 million to replace roofs on Grosvenor Hall and Porter Hall, S.B. 310 provided \$2.6 million to replace the roof on the Ping Center, and H.B. 529 provided approximately \$1.4 million to address building envelope repairs on Central Classroom, Lasher Hall, Putnam Hall, Radio Television Building, Kantner Hall, and the Old Heating Plant.

---

**C30158 Academic Space Renewal** **\$17,639,047**  
*County:* Athens

These funds will be used, in part, to renovate and modernize the 87,200 square foot Seigfred Hall, which was constructed in 1962 and houses OHU's College of Fine Arts. This project will replace classrooms and laboratory spaces where minimal investments have been made since the building was constructed. Renovations will address deferred maintenance, increase efficiencies, reduce maintenance costs, and promote sustainable practices through the reuse of the structurally sound building. In addition to completing the Seigfred Hall project, funds will be used to create modern active learning classrooms in certain spaces around the Athens campus. H.B. 687 provided a portion of the \$8.4 million appropriated for this line item in the FY 2023-FY 2024 biennium for the design and beginning renovations of Seigfred Hall. Overall, the total project cost for the Seigfred Hall renovation is estimated at \$94.2 million, with approximately \$67.2 million supported by local funds.

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C30171 Campus Infrastructure Improvements - Regional Campuses** **\$5,085,385**  
*County:* Multi-county - Belmont, Muskingum

These funds will be used to renovate or replace building and campus-wide infrastructure at buildings located on OHU's regional campuses. In the FY 2025-FY 2026 biennium, the funds will be used to address energy efficiency, deferred maintenance, and replacement of mechanical systems that have reached their useful life on the Eastern (Belmont County) and Zanesville (Muskingum) campuses. Specific projects include replacing HVAC air delivery system equipment, ceilings, and lighting systems at Shannon Hall on the Eastern Campus and replacing HVAC handlers and constructing a new building automation system at Elson Hall on the Zanesville Campus. H.B. 687 provided \$4.5 million for various OHU regional campus infrastructure projects.

(SSC)

**Shawnee State University**

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C32400 Basic Renovations \$3,507,300**

*County:* Scioto

These funds will be used for basic renovations and deferred maintenance around campus that were identified through SSC's 2018 comprehensive campus assessment (which is currently being updated to reflect more recent conditions at the campus). Priority projects will address infrastructure, including roof replacements, upgrades to fire alarm and public address systems, replacement of end-of-life HVAC systems, upgrades to equipment essential to enabling delivery of modern technologies, and, if possible, improvements to parking and pedestrian walkways that are critical for campus-community safety. H.B. 687 provided \$3.6 million for basic renovation projects.

(UTO)

**University of Toledo**

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

**C34073 Mechanical Systems Improvements \$2,000,000**

*County:* Lucas

These funds will be used to replace air handlers, exhaust fans, and other heating and cooling equipment in buildings across campus, including Bowman-Oddy, Lake Erie Center, Memorial Fieldhouse, and Wolfe Hall on the Main Campus and the Health Education and Health Sciences buildings on the Health Science Campus. As part of the project, air handlers will be replaced, and the obsolete equipment will be removed. Also, a major laboratory reverse osmosis water system will be upgraded, and the campus-wide central chilled water system will be renovated. UTO will supplement these funds with \$500,000 in local funds.

---

**C34080 Building Envelope/Weatherproofing \$2,000,000**

*County:* Lucas

These funds will be used to clean and replace roofs, weatherproofing, weather flashings, doors, and window glazing on several buildings across campus, including Libbey Hall, the University Computer Center, and University Hall on the Main Campus and the Health Education and Health Sciences buildings on the Health Science Campus. UTO will supplement these funds with \$500,000 in local funds.

---

**C34094 Electrical System Enhancements \$1,000,000**

*County:* Lucas

These funds will be used to replace electrical switchgear equipment and transformers in Snyder Memorial, Ritter Observatory, and the Campus High Voltage Switch Repairs buildings on the Main Campus. Replacing the 40- to 60-year-old equipment will improve the power infrastructure for the buildings, ensure energy savings, and extend the lives of the buildings and systems. The project will also replace the motor control centers in the Health Education and Health Science buildings on the Health Science Campus. UTO will supplement these funds with \$500,000 in local funds.

---

**C340B3 Reverse Osmosis Auto Watering System for Research Animals** **\$525,000**

*County:* Lucas

These funds will be used to complete the work on a 2023-installed centralized reverse osmosis (RO) system in the animal facilities within the Health Education Building on the Health Science Campus. The system provides over 1,200 gallons of highly-filtered RO water daily to more than 7,000 research animals in support of UTO's continued growth in animal research. Specifically, the project will complete work on the RO system that began during the FY 2021-FY 2022 biennium and extend the watering lines so that the entire facility can be automatically watered. S.B. 310 provided \$625,000 for the purchase and installation of the RO system.

---

**C340C6 Space Replacement/Consolidation** **\$10,000,000**

*County:* Lucas

These funds will be used to continue UTO's efforts to consolidate space and reduce the overall square footage of its campus. Generally, work will concentrate on renovations and space repurposing required to support the movement of staff and operations, which may lead to additional building demolitions or space elimination. Through these past projects, UTO has reduced its building and space inventory by approximately 17%.

---

**C340D8 Carlson Library Renovations** **\$2,500,000**

*County:* Lucas

These funds will be used to relocate the University Writing and Tutoring centers from the basement of Carlson Library to the first floor to make them more visible and inviting for students. Funds may also be used to create additional indoor and outdoor seating and study space at the Library. The project will also correct deficiencies throughout the building that will make the space cleaner, brighter, and more student-friendly. UTO will supplement these funds with \$500,000 in local funds.

---

**C340D9 DLAR Procedure Room Renovations** **\$1,028,599**

*County:* Lucas

These funds will be used to renovate the research animal facilities in the Health Education Building on the Health Science Campus. The original, 1975 design of the Department of Laboratory Animal Resources (DLAR) space was focused on large animal species (dogs, cattle, sheep, and swine), which included many small mason block kennels to individually house those large animals that can no longer be used efficiently under the space's current configuration. This project will reconfigure eight of those large kennels and enclose two unused corridors to create 11 flexible rooms appropriate for the current research species (rodents). The multipurpose rooms will then be used for research activities, including surgery, behavioral studies, and imaging.

---

<b>C27570</b>	<b>Envelope Repairs</b>	<b>\$625,200</b>
<i>County:</i>	Greene	

These funds will be used for the fourth phase of a multi-phase envelope repair project at WSU's Dayton campus. Specifically, projects in this phase will include, but are not limited to, repairing wall leaks involving exterior doors and glass block windows. H.B. 687 provided \$1.5 million for the third phase of this project, which also focused on wall leaks.

---

<b>C27582</b>	<b>Campus Paving and Grounds</b>	<b>\$600,000</b>
<i>County:</i>	Greene	

These funds will be used for the fourth phase of a multi-phase project that will renovate the paved portions of campus, including sidewalks and parking lots. The scope of this phase addresses sections of parking lots and roads with failing asphalt that need to be completely replaced. H.B. 687 provided \$1.0 million for the third phase of the project. S.B. 310 and H.B. 529 provided \$343,000 and \$700,000 for the second and first ones, respectively.

---

<b>C27594</b>	<b>Health College Renovation</b>	<b>\$2,650,000</b>
<i>County:</i>	Greene	

These funds will be used for the final phase of a three-phase project to reorganize WSU's health care-oriented academic units into one, consolidated Health College at the Dayton Campus. Various departments from across the campus will be co-located to provide an integrated student experience and eliminate staffing duplications. This phase of the project will focus on (1) refreshing building finishes on the fourth floor of Millett Hall for consistency with prior renovation efforts, (2) relocation of computer laboratories scheduled to be renovated into the new Nursing Learning Resource Center, (3) renovation of vacant space to create a new Dean's office for the College of Liberal Arts and the College of Liberal Arts Academic Advising Center, both of which were displaced by previous Health College renovations and are currently located in temporary space, and (4) backfilling vacant space in buildings affected by the prior phases of the project. WSU will supplement these funds with \$6.5 million in local funds.

---

**C275B2 Allyn Hall Hangar Beautification \$2,500,000**

*County:* Greene

These funds will be used renovate the reflecting pool area partially surrounding the Hangar dining facility in Allyn Hall, the 60-year-old, original building located on WSU's Dayton campus. Currently, the reflecting pool is dry because of failed filter equipment, and its concrete floor has fragmented. Exterior paint and windows are also in need of attention. The project will convert portions of the reflecting pool into planter beds to reduce operating costs, repair the remaining area of the reflecting pool and filter equipment to hold water, extend a portion of the deck to create a stage to host outdoor events, and replace the windows with glass overhead doors to enhance the dining experience.

---

**C275B3 Student Union Atrium Renovation \$1,625,000**

*County:* Greene

These funds will be used to renovate the mid-1990s-constructed atrium of the Student Union, which serves as the central facility for student life, recruitment, and public events on WSU's Dayton campus. The atrium has largely remain untouched since its original construction, which has led to its gradual physical decline and no longer meeting the demands of modern student life. Specifically, the project will replace worn flooring, install a new video board to support recruitment and university events, and create spaces for additional retail opportunities. The project builds on ones from recent years that have built a new retail section and campus store, a Student Involvement and Leadership Center, and a home for the eSports club.

---

**C275B4 Paul Laurence Dunbar Library Renovation \$1,000,000**

*County:* Greene

These funds will be used to renovate the first floor and replace the main entry doors of the Paul Laurence Dunbar Library located on WSU's Dayton campus. Specifically, the project will repurpose space on the first floor of the building to meet the needs of a modern-day university and replace failed entry way systems with modern, accessible ones.

---

**C275B5 Campus Restroom Upgrades \$300,000**

*County:* Greene

These funds will be used to renovate select restrooms in buildings across WSU's Dayton campus. Projects include updating fixtures, partitions, and finishes to reduce maintenance costs and provide a clean, modern space. In restrooms with sufficient space, WSU may modify those areas to increase accessibility.

---

**C275B6 Laboratory Animal Resources Occupational Safety Phase II \$225,000**

*County:* Greene

These funds will be used to purchase equipment that will reduce occupational exposure to rodent allergens and biological and chemical hazards and improve ergonomics when storing and moving cages in the Laboratory Animal Resources (LAR) Department located on WSU's Dayton campus. Specific equipment to purchase includes three biosafety cabinets, a chemical fume hood to limit toxic chemical exposure, and 12 bulk trucks with shroud covers and two flatbed carts to manage hazardous cage and equipment during transport in the facility. S.B. 310 provided \$580,000 for the purchase of nine individually ventilated cage racks with all components necessary for housing mice, four bulk trucks for storing and transporting clean cages, and one bedding disposal unit with installation.

---

**C275B7 Technology Infrastructure Upgrades \$1,095,000**

*County:* Multi-county - Greene, Mercer

These funds will be used to renovate WSU's distributed network infrastructure and aging servers that are responsible for powering virtual desktops and server environments and upgrade audiovisual capabilities in various locations on WSU's Dayton and Lake campuses.

---

**C275B8 Festival Playhouse Upgrades \$500,000**

*County:* Greene

These funds will be used to address deferred maintenance repairs and replace the 40-year-old lighting and hoist systems in the Festival Playhouse space of the Creative Arts Center located on WSU's Dayton campus. Specifically, the project will replace the Festival Playhouse's 1983-installed dimmer light system with an LED one, since the current system is no longer reliable or safe to use. A shift to LED theatre lights will permit WSU to achieve energy efficiency and sustainability goals without sacrificing lighting quality. WSU estimates that 15,000 patrons attend performances at the Festival Playhouse each year.

---

<b>C275B9</b>	<b>Campus Safety Exterior Cameras and Access Control</b>	<b>\$500,000</b>
<i>County:</i>	Greene	

These funds will be used purchase and install swipe card-capable equipment and security cameras at locations around WSU's Dayton campus. Swipe card-capable equipment will be installed on the exterior of campus buildings for access control, which will assist in keeping buildings secure and provide stricter control of after-hours access to the buildings. In the FY 2025-FY 2026 biennium, projects will focus immediately on University Hall, the Dunbar Library, and the Student Union, with the goal of completing the entire campus. Additionally, security cameras will be installed in the tunnels and on the interiors and exteriors of campus buildings.

**C34565 IT Infrastructure Upgrades \$952,498**

*County:* Mahoning

These funds will be used to upgrade and enhance YSU's IT network infrastructure and data center server and storage systems. In the FY 2025-FY 2026 biennium, this work will be focused in the following locations and buildings on the YSU campus: Barnes & Noble Bookstore, Beeghly Center, Beeghly Hall, Bliss Hall, Cafaro Family Field, Cafaro Hall, Clingan-Waddell Hall (YSU Police), Covelli Sports Complex (Soccer Field and Softball Field), Cushwa Hall, Jones Hall, Kilcawley Center, Kohli Hall/Excellence Training Center, Maag Library, Meshel Hall, Silvestri Hall, Stambaugh Stadium, Sweeney Hall, Tennis Center, Todd Hall, Ward Beecher Hall, Watson Team Center and Williamson Hall.

---

**C34586 Kilcawley Center Renovations \$9,753,000**

*County:* Mahoning

These funds will be used to renovate and modernize the 1965-constructed Kilcawley Center, which serves as YSU's focal point for dining services, student activities, and other events. The last major renovations to the building occurred in 1971 and 1979, at which time the building doubled in size to serve the campus community. Since then, the building has received minor renovations and has had its space repurposed to meet the needs of students at those times. It now no longer functions effectively or meets the contemporary needs of the students. The project will address a large deferred maintenance backlog and aged building systems that are at or nearing the end of their useful life. Existing space within the building will be reorganized, which will lead to greater efficiency of use, provide the opportunity to address accessibility concerns, and bring health and safety issues into compliance with current building and life safety codes. YSU will supplement these funds with approximately \$31.3 million in local funds.

This line item provides funds toward the third, and final, phase of renovating LCC's Engineering Building. This phase of the project will provide building hardware, IT hardware, laboratory and audio visual equipment, and classroom, industrial laboratory, and study space furniture for those spaces that have been renovated. In previous phases, projects included renovation of nearly 18,000 square feet of industrial laboratory space in the Industrial Skills Training Center for Advanced Manufacturing, the addition and renovation of more than 10,000 square feet of space for a multi-functional fabrication center and 3D printing space, and the creation of a 2,000-square-foot exterior welding laboratory. The total cost for this phase of the project is estimated to be approximately \$3.8 million, with the remaining funds coming from local and other sources. Previous appropriations for this line item include \$4.0 million in each of H.B. 687 and H.B. 529.

---

<b>C37935</b>	<b>Mechanical Infrastructure Replacement</b>	<b>\$1,070,537</b>
<i>County:</i>	Lake	

These funds will be used for the first phase of a four-phase project to upgrade and replace 2,900 linear feet of 50-plus year-old uninsulated ductwork and 19 air handler units. Fourteen of the 19 units range in age from 43 to 52 years old. Phase one, occurring in the FY 2025-FY 2026 biennium, will fully replace the ductwork located in buildings A and B. The total cost for this phase of the project is estimated to be approximately \$1.3 million, with LCC providing the remaining funds.

---

<b>C37936</b>	<b>Electric Infrastructure Replacement</b>	<b>\$910,470</b>
<i>County:</i>	Lake	

These funds will be used to replace 2,670 feet of underground electric cable infrastructure, which ranges in age from 40 to 50-plus years old. The new electric cables will have an expected life of 50 years versus the current cables' 30 years. The total project cost is estimated to be approximately \$960,500, with LCC providing the remaining funds.

**HIGHER EDUCATION IMPROVEMENT FUND (7034)**

---

<b>C38334</b>	<b>Parking Lot Improvements</b>	<b>\$3,249,652</b>
---------------	---------------------------------	--------------------

*County:* Lorain

These funds will be used for the continued wholesale renovation of LOR's parking lots to provide the students and community of Lorain County safe access to the campus' buildings. The parking lots, which are over 50 years old and original to LOR, are in need of significant maintenance and repair. As the campus has grown over time and the lots expanded to accommodate the growth, traffic patterns were never addressed. This resulted in narrow lanes and blind corners that are difficult to navigate. H.B. 687 provided \$3.0 million in this line item for the FY 2023-FY 2024 capital biennium. S.B. 310 provided \$3.0 million in line item C38323, Parking Lot 2 and Lot 3, to renovate parking lots 2 and 3 for the FY 2021-FY 2022 capital biennium.

---

<b>C38338</b>	<b>Roofing Replacements</b>	<b>\$3,249,652</b>
---------------	-----------------------------	--------------------

*County:* Lorain

These funds will be used to replace the roofs on the University Center and Spitzer Conference Center. The current roofs, which generally have a useful life of 20 to 25 years, are original to the buildings and are 26 and 30 years old. The membranes on the perimeter of both roofs are starting to shrink, which makes the roofs more difficult to maintain.

**C37745 Advanced Manufacturing and Skilled Trades Training Hubs \$2,500,000**

*County:* Multi-county - Montgomery, Warren

These funds will be used to renovate campus space on the main and Mason campuses to develop comprehensive advanced manufacturing centers. Each center will include highly flexible space to easily transition and embrace technological advances in manufacturing training. Previous appropriations for this line item include \$5.0 million in H.B. 687 and \$1.0 million in S.B. 310.

---

**C37760 Roof Replacements \$950,000**

*County:* Montgomery

These funds will be used to replace the roof on the 100,000-square-foot building located on the Centerville campus. H.B. 687 provided \$200,000 in this line item to replace the roof on Building B located on the Mason campus for the FY 2023-FY 2024 capital biennium.

---

**C37769 Campus Wide Chiller Replacement \$1,100,000**

*County:* Montgomery

These funds will be used to replace two chillers each for buildings 14 and 20. These existing systems have reached their life-cycle expectancy and are becoming more expensive to maintain. Replacement will be more energy efficient, reliable, and designed with modern technology for compliance.

---

**C37773 Learning Environment Renovations \$2,037,997**

*County:* Montgomery

These funds will be used for renovation projects on the main campus. These renovations may include reconfiguration of spaces to better meet student needs, replacement of outdated equipment and fixtures, or improvement of technology.

---

**C37774 Food Service Renovation-Centerville Campus \$1,500,000**

*County:* Montgomery

These funds will be used to renovate the kitchen space on the Centerville campus to enable full-service food preparation. Currently, only food warming is possible in that space.

---

<b>C37775</b>	<b>Parking Garage Renovations</b>	<b>\$1,000,000</b>
---------------	-----------------------------------	--------------------

*County:* Montgomery

These funds will be used to repair existing concrete and asphalt surfaces and support structures required to maintain a functional and safe parking environment. These repairs are typical life-cycle replacements caused by environmental conditions and vehicle wear and tear.

---

<b>C37776</b>	<b>Air Handler Replacements</b>	<b>\$2,623,000</b>
---------------	---------------------------------	--------------------

*County:* Montgomery

These funds will be used to replace nine air handler units and controls on the main campus, including four in building 13, three in building 14, and two in building 20. These units have reached their life cycle expectancy, and replacement units will be more energy efficient with increased capacity to accommodate future building requirements. The old pneumatic controls will also be upgraded to modern electronic ones.

*County:*    Multi-county - Cuyahoga, Pickaway, Stark

These funds will be used for safety and security improvement projects and other renovations at the Circleville (Pickaway County), Cuyahoga Hills (Cuyahoga County), and Indian River (Stark County) juvenile correctional facilities operated by the Department.

---

**C47003    Community Rehabilitation Centers** **\$32,695,413**

*County:*    Statewide

These funds will be used to build a new community corrections facility (CCF) and for general renovations at the existing 11 county-operated CCFs, including door and lock replacement, security system upgrades, HVAC repairs, and floor replacements. This line item also provides funding to renovate a vacant CCF wing to provide 18 additional beds and serve as an alternative placement option for youth sentenced to the care and custody of the Department. The Department is responsible for all costs associated with the maintenance and operation of these facilities.

Pursuant to related temporary law, the Department is (1) required to designate the projects involving the construction and renovation of single-county and multicounty community corrections facilities, (2) permitted to review and approve the renovation and construction projects for which funds are provided, and (3) required to adopt guidelines to accept and review applications and designate projects.

---

**C47007    Local Detention Centers** **\$1,104,387**

*County:*    Statewide

These funds will be used for renovation and maintenance projects at various juvenile detention centers. Juvenile detention centers are secure, county-operated facilities intended to provide short-term care and custody of alleged and adjudicated juvenile offenders. This funding will be used for projects at detention centers located in Butler, Erie, Greene, Fairfield, Lake, Lorain, Muskingum, Seneca, Williams, and Trumbull counties. Currently, there are 34 operational detention centers statewide.

Pursuant to related temporary law, the Department is (1) required to designate the projects involving construction and renovation of county and multicounty juvenile detention centers, (2) permitted to review and approve the renovation and construction projects for which funds are provided, (3) accept and review applications, designate projects, and determine the amount of state match funding to be applied to each project, and (4) required to determine, with the advice of the county or counties participating in a project, the funded design capacity of the detention centers that are designated to receive funding. The state match, if there is to be one, is based on a weighted numerical formula ranging from 0% to 60%. Project funding is not authorized unless the detention center will be built in compliance with Department's health, safety, and security standards, and the renovation is to increase the number of beds.

**C72305 Facility Improvement and Modernization Plan** **\$9,000,000**

*County:* Franklin

This appropriation will be used to support facility improvements at the Ohio Expo Center, including improving the main entrance, walkways, pedestrian lighting, and fencing to enhance the appearance of the grounds. H.B. 687 of the 134th G.A. appropriated \$10.0 million for these purposes; however, that funding was transferred for use on the Expo 2050 project.

---

**C72312 Emergency Renovations and Equipment Replacement** **\$500,000**

*County:* Franklin

This appropriation will be used as a contingency for emergency repairs that might be required as the result of water main breaks, loss of service on buried electrical lines, loss of transformers, winter storm damage, and so forth. This appropriation will also be used for the repair or purchase of major equipment needed to run the Ohio Expo Center. S.B. 310 of the 133rd G.A. and H.B. 687 of the 134th G.A. each appropriated \$1.5 million for these purposes.

---

**C72324 EXPO2050** **\$196,350,000**

*County:* Franklin

This appropriation will be used to support phase one of the Ohio State Fair's Expo 2050 initiative. Specifically, this will be used for a full renovation of the Dairy Products building, partial renovations for the Bricker building and the historic North Commercial Pavilion, work on underground infrastructure including extended site fiber and Wi-Fi, and the addition of accessible restrooms with universal changing tables. H.B. 687 of the 134th G.A. appropriated \$10.0 million for these purposes. An additional \$10.0 million was transferred from C72305, Facility Improvement and Modernization Plan, during the FY 2023-FY 2024 capital biennium.

**PUBLIC SCHOOL BUILDING FUND (7021)**

---

**C23001 Public School Buildings** **\$7,000,000**

*County:* Statewide

These moneys are unspent cash appropriations remaining from the \$75.0 million appropriated to this line item in H.B. 529 for the FY 2019-FY 2020 biennium. Traditionally, funds received from this item and appropriation item C23002, School Building Assistance Program, (Fund 7032) have been used together to provide the state share of basic project costs to those school districts participating in facilities programs overseen by the Facilities Construction Commission (FCC). Beginning in the FY 2025-FY 2026 biennium, these funds will, instead, be used to contract for certain specialized services that will benefit FCC's school building programs. Specifically, consultants will assist FCC with facility and hazardous materials assessments, enrollment projections, educational planning, financial closeouts, legal matters, and project management for the Expedited Local Partnership Program (ELPP) and Career Technical Construction Program.

**ADMINISTRATIVE BUILDING FUND (7026)**

---

**C23016 Energy Conservation Project** **\$1,800,000**

*County:* Statewide

These funds will be used by FCC's Office of Energy Services (OES) to award capital funding on a competitive basis to state agencies for energy related projects. Funding will be prioritized based upon the return on investment. Funds may be used to retrofit and renovate existing state buildings with more energy-efficient equipment or supplement new construction projects in cases where a slightly more energy-efficient design could yield significant savings over the life of the building.

---

**C230E5 State Agency Planning and Assessment** **\$2,950,000**

*County:* Statewide

These funds will be used to continue assessments of state agency and state-supported higher education institution facilities for capital master planning and maintenance management. The assessments determine the current physical condition of a facility and an estimate of costs necessary to repair, update, and renovate the facility to current facility type, code, and agency standards. The data developed from the assessment supports agency facility maintenance and utilization management.

<b>C230W7</b>	<b>OHC-Lundy House Restoration</b>	<b>\$1,000,000</b>
---------------	------------------------------------	--------------------

*County:* Jefferson

These funds will be used for the first phase of restoration of the Benjamin Lundy House/Free Labor Store. Once the restoration project is complete the site will function as a museum in the Mount Pleasant National Historic District.

---

**C230X1 OHC-Site Energy Conservation \$400,000**

*County:* Multi-county - Mahoning, Washington

These funds will be used by the Ohio History Connection for projects that reduce energy consumption and reliance on fossil fuels at various state historic sites and museum facilities with priority given to the Campus Martius Museum, Zane Grey/National Road, and a site located in Youngstown. Phase 1 will focus on conversion of exhibit lighting to LED low wattage track and fixtures.

**SCHOOL BUILDING PROGRAM ASSISTANCE FUND (7032)**

---

**C23002 School Building Program Assistance \$600,000,000**

*County:* Statewide

These moneys are generated from the sale of bonds. Funds received from this item will be used to provide the state share of basic project costs to those school districts participating in facilities programs overseen by FCC. Eligibility and priority for a district receiving state assistance is generally determined by the relative wealth of the district as measured through its three-year average adjusted valuation per pupil and the need to replace classroom facilities as assessed by FCC.

**C22616    Renovations And Improvements** **\$3,090,000**

*County:*    Franklin

These funds will be used to convert a former elementary school building on the State School for the Deaf campus (OSD Lower Elementary) into a new facility for the Ohio Deaf and Blind Education Services (ODBES) Early Learning Center. The renovations will update HVAC, lighting, windows and doors, and fixtures, as well as make the building ADA-compliant. The OSD Lower Elementary building was originally built in 1954. It is more centrally located to the cafeteria, library, gymnasium, and higher grades' buildings on campus, allowing for more convenient logistics and programming.

---

**C22624    Natatorium Renovations** **\$4,319,115**

*County:*    Franklin

These funds, combined with \$2.7 million received in the FY 2023-FY 2024 biennium, will be used to replace the State School for the Blind's natatorium. ODBES initially planned to refurbish the current natatorium, but renovation cost increases, project delays, and the need for a new roof in several years resulted in a decision to build a new facility. The current natatorium was originally built in 1976. It is used for the school's physical education program and provides therapeutic and learning experiences to the school's students.

---

**C22628    Demolish Old Campus Building** **\$420,000**

*County:*    Franklin

These funds will be used to demolish the badly-damaged and unoccupied former vocational building on the State School for the Deaf campus. ODBES expects that demolition of this building will reduce ongoing maintenance and upkeep expenses.

---

**C22631    Campus Connector** **\$3,500,000**

*County:*    Franklin

These funds will be used to construct a bridge over Bill Moose Run and connecting roadways to connect the state schools for the blind and the deaf. The bridge will reduce travel time and resources used to transport students and staff between campuses. Currently, Bill Moose Run separates the schools, meaning an individual must leave one school's campus and travel on public roads to arrive at the other campus. The funds will support contracting with an engineer to design the bridge and connecting roadways and a portion of the project's construction costs. During the FY 2025-FY 2026 biennium, ODBES will also negotiate with the Franklin County Soil and Water Conservation District over exchange of the land to build the bridge, as Bill Moose Run is part of a protected watershed. ODBES anticipates requesting additional funding in the FY 2027-FY 2028 biennium to complete construction.

**STATE CAPITAL IMPROVEMENTS FUND (7038)**

---

**C15000 Local Public Infrastructure** **\$400,000,000**

*County:* Statewide

This appropriation will fund FY 2025 and FY 2026 (Program Years 38 and 39) of the State Capital Improvement Program (SCIP), through which PWC provides grants and loans to local governments for projects involving roads and bridges, fresh water treatment and distribution systems, wastewater collection and treatment facilities storm sewer systems, and solid waste disposal facilities. Since FY 2022, the maximum amount of bonds authorized to be issued each year has been \$200 million. Funding for SCIP is authorized under Article VIII, Section 2s of the Ohio Constitution. The money for these projects is allocated among the state's 19 Public Works Integrating Committees.

**STATE CAPITAL IMPROVEMENTS REVOLVING LOAN FUND (7040)**

---

**C15030 Revolving Loan** **\$100,000,000**

*County:* Statewide

This appropriation will fund revolving loans supplementing SCIP grants during the FY 2025-FY 2026 capital biennium. These revolving loans go toward funding projects similar to those under SCIP. Once all repayments are collected from local governments in a particular district, PWC reallocates the collective sum of these loan repayments back to the district's Public Works Integrating Committees, which then recycle the funds for new capital improvements within the district. The loans are typically for 20 or 30-year terms with 0% interest rates. The Commission currently manages over 3,500 active loans with a total loan portfolio of approximately \$600.0 million.

**CLEAN OHIO CONSERVATION FUND (7056)**

---

**C15060 Clean Ohio Conservation** **\$75,300,000**

*County:* Statewide

This appropriation provides FY 2025-FY 2026 funding for local governments and non-profit organizations to acquire and develop open space and undertake riparian corridor enhancement projects under PWC's Clean Ohio Conservation Program (COCP). During the FY 2023-FY 2024 biennium, the Commission approved over 150 projects. Project selection is done by the 19 Natural Resource Assistance Councils. COCP is part of the state's Clean Ohio initiative, which also includes funding for agricultural easements and trail systems across the state.

**Incorporate additional taxes, fees, and charges into the Ohio Tax System**

This capital line item will pay part of the cost of incorporating 23 additional taxes, fees, and charges into the existing Ohio Tax System (OTS), plus any new state tax enacted during the contract term. The full project will proceed in phases expected to extend through FY 2027. OTS was developed with outside vendor Fast Enterprises, which configured a software package for the Department of Taxation's needs. The state income tax and school district income tax have been processed on OTS since September 2023. State business taxes are processed on a system implemented earlier, called the State Taxation Accounting and Revenue System (STARS) that is now out of extended support. The Department plans to migrate business taxes from STARS to OTS over the next three fiscal years.
