Introduction

The Comparison Document provides brief descriptions and fiscal estimates of the provisions that make up the executive recommended version and subsequent versions of the biennial main operating budget bill of the 136th General Assembly, House Bill 96. The document is arranged in alphabetical order by state agency. It also includes three nonagency items for which appropriations are made: Employee Benefits Fund (PAY), Pension Subsidies (PEN), and Revenue Distribution Funds (RDF) as well as a section for Local Government Provisions (LOC). A Table of Contents follows this Introduction. Three indices are located at the end of the document. The first index gives the page number of each particular item within the sections; the second index lists cross-references by agency; the third index lists items affected by the Governor's vetoes by agency.

Generally within an agency's section, items that involve Revised Code changes come first, followed by items that involve uncodified (i.e., temporary) law provisions. The sections for the Department of Education and Workforce, the Department of Medicaid, and the Department of Taxation are first arranged by general topic area. If an item affects more than one agency, it is described under one of the affected agencies, rather than all of the agencies. However, the other agencies are listed in the cross-reference index at the end of the document. This index lists, for each agency, all entries that affect the agency but are not included in that agency's section as well as the page numbers for these entries. A reader who is interested in all provisions affecting a certain agency should consult the cross-reference index in addition to the agency's section.

Each item is assigned a unique identification number. This number begins with the three-letter agency code used in the state's accounting system followed by a comparison document reference ("CD") and a number (TAXCD15, for example). A reader who wants to track an item across several versions of the Comparison Document may find the identification number useful.

Items affected by the Governor's vetoes are noted by either the words "VETOED" or "PARTIALLY VETOED" in the item's subject line. Within the item description, vetoed components are contained within the bracketed text. However, fiscal entries for the vetoed or partially vetoed items do not reflect the effects of the vetoes. The Comparison Document does not include appropriation amounts for the agencies. Please see the Appropriation Spreadsheet for that information. For a complete discussion of the statutory changes in the bill, please see the Bill Analysis for H.B. 96.

In FY 2025, the school's enrollment is 58 students. Of those, 25 are on either an Autism or Jon Peterson Special Needs state scholarship. State costs to operate the school will be partially offset by lower scholarship costs since the state would not pay for scholarships for the students once the school becomes a public school. 		Fiscal effect: According to DEW, about 21% of the students in grades 3-12 tested in English language arts and about 32% of the students in grades 3-12 tested in math scored at the limited level of skill in the 2023 2024 school year. According to the Buckeye Association of School Administrators, most schools already offer intervention services to students. Ultimately, costs will vary depending on the number of qualifying students who are not already served or exempt and how each district or school chooses to provide the services. Additional costs could arise for districts and schools that do not meet the 51% threshold for third-grade math proficiency to develop and carry out math achievement improvement plans. For the 2023-2024 school year, 84 (14%) traditional school districts and 140 (42%) community schools were below the threshold. DEW will incur additional administrative costs, potentially in the hundreds of thousands of dollars annually, to review and report on the academic intervention services provided by up to 5% of public schools, depending on the scope, duration, and complexity of the reviews.

No provision.	No provision.

Executive	As Passed By House	As Passed By Senate	As Enacted
Fiscal effect: May increase or decrease a district or school's federal school meal program reimbursements depending on whether a district or school opts to participate and their identified student percentage. May reduce school meal program administration costs for districts and schools that choose to participate in CEP and meet the 25% threshold. May indirectly decrease state foundation aid for districts and schools. DEW currently uses free and reduced-price lunch eligibility to identify students as economically disadvantaged for purposes of the state foundation aid formula's Disadvantaged Pupil Impact Aid (DPIA) component. DPIA is based in part on how a district or school's concentration of students identified as economically disadvantaged compares to the state average. The bill's provision may increase the population of students identified as economically disadvantaged, which in turn may increase the statewide average percentage of those students. As the statewide percentage rises, some districts' individual economically disadvantaged percentages may be smaller relative to the statewide percentage, resulting in decreased DPIA.

FCCCD10 Portion of basic project cost supplied by district			
R.C. 3318.032	**R.C. 3318.032**		**R.C. 3318.032**
Modifies the calculation of the portion of the basic project cost a school district must provide for its Classroom Facilities Assistance Program (CFAP) project from the greater of either (1) the required percentage based on its equity ranking or (2) an amount necessary to raise the school district's net bonded indebtedness to a prescribed level, to its portion being determined by only the required percentage based on its equity ranking.	Same as the Executive.	No provision.	Same as the Executive.

Executive	As Passed By House	As Passed By Senate	As Enacted
Requires, for a district that opts to segment its classroom facilities project, its local share for the first segment to be calculated using the required percentage of the basic project, instead of the greater of either (1) the required percentage based on its equity ranking or (2) an amount necessary to raise the school district's net bonded indebtedness to a prescribed level. Requires that any future segment's portion of the basic project cost use the same share as used in the first segment.	Same as the Executive.	No provision.	Same as the Executive.
Fiscal effect: According to OFCC, only 13 CFAP projects to date have used the required level of indebtedness method to determine their local share, so OFCC expects the elimination of the net indebtedness method will affect only a small number of school districts in the future by not penalizing them for not having debt. OFCC anticipates that when qualifying for CFAP these school districts will have a lower local share than they otherwise would have had calculated under the current method of local share determination. In turn, state shares will likely be higher for these projects.	**Fiscal effect: Same as the Executive.**		**Fiscal effect: Same as the Executive.**

FCCCD5 Amendment to project agreement for maintenance levy			
Section: 287.50	**Section: 287.50**	**Section: 287.50**	**Section: 287.50**
Requires OFCC to amend the project agreement between OFCC and a school district that is participating in the Accelerated Urban Initiative (AUI) if OFCC determines it is necessary to do so in order to comply with the change in maintenance levy requirements enacted by H.B. 1 of the 128th G.A.	Same as the Executive.	Same as the Executive.	Same as the Executive.
Fiscal effect: H.B. 1 of the 128th General Assembly changed the maintenance levy requirements for the six AUI districts (Akron, Cincinnati, Cleveland, Columbus, Dayton, and Toledo) to run for 23 years from the date the initial segment is undertaken, instead of extending for 23 years after the district's last segment was undertaken (the six AUI projects are broken into individual segments). For the districts that have not changed their agreements yet, the H.B. 1 change would reduce the number of years for which the districts would have to levy the required 1/2 mill property tax for maintenance. Currently, projects for Cleveland and Columbus are incomplete. Presumably, these AUI districts would use other funds to meet their building maintenance needs if the original project agreements were amended.	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**	**Fiscal effect: Same as the Executive.**

	Fiscal effect: The provision reduces domestic and foreign insurance tax revenues up to $100 million per year, depending on the amount of TMUD tax credits awarded after FY 2025. The credit is nonrefundable and transferable. The Ohio Tax Credit Authority (TCA) only issues a tax credit certificate after completion of a certified TMUD project. Construction must begin within 12 months of the date a project is certified by the TCA. Previously, the TCA approved the $100 million in tax credits in the middle of a fiscal year, and the construction timeline for most mixed-use development projects was generally more than one year. If these patterns continue for prospective projects, it is plausible that the associated state tax revenue losses would not begin until FY 2028.	**Fiscal effect: The provision reduces future domestic and foreign insurance tax revenues up to $300 million total, depending on the amount of TMUD tax credits awarded in FY 2026 and FY 2027.
