No provision.	No provision. Fiscal effect: Likely revenue neutral.	[***VETOED: Prohibits the award of the film and theater production tax credit after FY 2027 unless specifically authorized by an act of the General Assembly. ***] Fiscal effect: The repeal of the film and theater capital improvement tax credit will likely increase GRF tax revenue by \$25 million, plausibly beginning in FY 2027. The Senate provision also plausibly increases state tax revenues by up to \$50 million per year after the film and theater production tax credit award authorization sunsets at the end of FY 2027. No provision.	No provision.		Phases down the state income tax to a flat rate of 2.75% over two years. For tax year 2025, reduces the top bracket rate (income over \$100,000) from 3.5% to 3.125%, while retaining the 2.75% rate for income between \$26,050 and \$100,000. 	<p>Fiscal effect: The provision reduces domestic and foreign insurance tax revenues up to \$100 million per year, depending on the amount of TMUD tax credits awarded after FY 2025. The credit is nonrefundable and transferable. The Ohio Tax Credit Authority (TCA) only issues a tax credit certificate after completion of a certified TMUD project. Construction must begin within 12 months of the date a project is certified by the TCA. Previously, the TCA approved the \$100 million in tax credits in the middle of a fiscal year, and the construction timeline for most mixed-use development projects was generally more than one year. If these patterns continue for prospective projects, it is plausible that the associated state tax revenue losses would not begin until FY 2028.</p>	<p>Fiscal effect: The provision reduces future domestic and foreign insurance tax revenues up to \$300 million total, depending on the amount of TMUD tax credits awarded in FY 2026 and FY 2027.
