AGECD4 Electronic visit verification - home care services

R.C. 121.36

Exempts providers utilizing electronic visit verification systems from the law requiring providers under contract with the ODA, ODODD, ODJFS, and ODH to satisfy certain conditions (e.g. procedures for maintaining certain records and procedures for conducting a random check of 5% of home care visits) when adopting a system to monitor the delivery of home care services by their employees.

Eliminates the law requiring the departments above to study and submit a report addressing how self-employed providers, who are exempt under current law from the requirement to adopt a monitoring system, may be made subject to that requirement by September 27, 2005.

Fiscal effect: If the provision leads to a reduction in provider administrative costs, this might eventually result in a decrease in reimbursements provided by these departments.
