House Bill 96 — 136th General Assembly

Main Operating Budget Bill (FY 2026-FY 2027)

As Introduced
As Passed by the House
As Reported by Senate Finance

Introduction

The Comparison Document provides brief descriptions and fiscal estimates of the provisions that make up the executive recommended version and subsequent versions of the biennial main operating budget bill of the 136th General Assembly, House Bill 96. The document is arranged in alphabetical order by state agency. It also includes three nonagency items for which appropriations are made: Employee Benefits Fund (PAY), Pension Subsidies (PEN), and Revenue Distribution Funds (RDF) as well as a section for Local Government Provisions (LOC). A Table of Contents follows this Introduction. Two indices are located at the end of the document. The first index gives the page number of each particular item within the sections; the second index lists cross-references by agency.

Generally within an agency's section, items that involve Revised Code changes come first, followed by items that involve uncodified (i.e., temporary) law provisions. The sections for the Department of Education and Workforce, the Department of Medicaid, and the Department of Taxation are first arranged by general topic area. If an item affects more than one agency, it is described under one of the affected agencies, rather than all of the agencies. However, the other agencies are listed in the cross-reference index at the end of the document. This index lists, for each agency, all entries that affect the agency but are not included in that agency's section as well as the page numbers for these entries. A reader who is interested in all provisions affecting a certain agency should consult the cross-reference index in addition to the agency's section.

Each item is assigned a unique identification number. This number begins with the three-letter agency code used in the state's accounting system followed by a comparison document reference ("CD") and a number (TAXCD15, for example). A reader who wants to track an item across several versions of the Comparison Document may find the identification number useful.

The Comparison Document does not include appropriation amounts for the agencies. Please see the Appropriation Spreadsheet for that information. For a complete discussion of the statutory changes in the bill, please see the Bill Analysis for H.B. 96.

No provision.	Declares the intent of the General Assembly that the State of Ohio purchase St. Rita School for the Deaf for an amount to be determined. Requires the Department of Administrative Services (DAS) to determine the amount of funding needed for the state to purchase the building in which the school is housed and the accompanying 20 acres of land on which the building is located so that the school may become a public school under the supervision of ODBES.	No provision.
	Fiscal effect: The bill earmarks up to \$500,000 in FY 2026 from GRF ALI 226321, Operations, to support the transition of St. Rita School for the Deaf to Rita Community School (see OSBCD4). Increases state expenditures to purchase the building and land, at an amount that DAS will determine, and on ongoing basis depending on enrollment, student needs, and educational programming beginning in FY 2027, when the transition is complete. In FY 2025, the school's enrollment is 58 students. Of those, 25 are on either an Autism or Jon Peterson Special Needs state scholarship. State costs to operate the school will be partially offset by lower scholarship costs since the state would not pay for scholarships for the students once the school becomes a public school. Fiscal effect: The bill funds \$40,000,000 in grants in FY 2026.	Fiscal effect: The bill funds \$45,625,000 in grants in each fiscal year. The tax credit provision could reduce tax revenues by up to \$20,000,000 in the next biennium, but actual revenue loss could be lower than that based on the current biennium's experience. Only a small fraction of the \$50,000,000 in WHO tax credits available during the FY 2024-FY 2025 biennium have been awarded, which could either signal a lack of demand or a long project completion timeline. Developers may only apply to DEV for a tax credit certificate after the rehabilitation or construction of a qualifying residential property is complete, and the property was sold to someone with qualifying income for the individual's or individuals' occupancy. If there has been a lack of demand, this provision's changes could lead to an increase in demand and more credits being issued.	Fiscal effect: Same as the House.

		Fiscal effect: According to DEW, about 21% of the students in grades 3-12 tested in English language arts and about 32% of the students in grades 3-12 tested in math scored at the limited level of skill in the 2023 2024 school year. According to the Buckeye Association of School Administrators, most schools already offer intervention services to students. Ultimately, costs will vary depending on the number of qualifying students who are not already served or exempt and how each district or school chooses to provide the services. Additional costs could arise for districts and schools that do not meet the 51% threshold for third-grade math proficiency to develop and carry out math achievement improvement plans. For the 2023-2024 school year, 84 (14%) traditional school districts and 140 (42%) community schools were below the threshold. DEW will incur additional administrative costs, potentially in the hundreds of thousands of dollars annually, to review and report on the academic intervention services provided by up to 5% of public schools, depending on the scope, duration, and complexity of the reviews.

EDUCD27 Community Eligibility Provision (CEP) participation R.C. 3313.8110, 3314.03, 3326.11		
Requires each school district, community school, and STEM school that participates in the federal school breakfast or lunch program and has an identified student percentage (i.e., the percentage of students eligible for free and reduced-price meals through direct certification due to their participation in certain other assistance programs) of at least 25% to participate in CEP and provide a free breakfast or lunch, respectively, to each enrolled student. Department of Education and Workforce		Main Operating Appropriations Bill H.B. 96
Executive	As Passed By House	As Reported By Senate Finance
Fiscal effect: May increase or decrease a district or school's federal school meal program reimbursements depending on whether a district or school opts to participate and their identified student percentage. May reduce school meal program administration costs for districts and schools that choose to participate in CEP and meet the 25% threshold. May indirectly decrease state foundation aid for districts and schools. DEW currently uses free and reduced-price lunch eligibility to identify students as economically disadvantaged for purposes of the state foundation aid formula's Disadvantaged Pupil Impact Aid (DPIA) component. DPIA is based in part on how a district or school's concentration of students identified as economically disadvantaged compares to the state average. The bill's provision may increase the population of students identified as economically disadvantaged, which in turn may increase the statewide average percentage of those students. As the statewide percentage rises, some districts' individual economically disadvantaged percentages may be smaller relative to the statewide percentage, resulting in decreased DPIA.

Eliminates law that requires: (1) SBE to enter into an agreement with a construction trade organization located in Ohio, such as affiliated construction trades (ACT) Ohio, or its successor organization, to develop a mandatory training program to educate school counselors on building and construction trades career pathways; and (2) each licensed school counselor serving students in grades 7-12 to complete four hours of that training every five years.	No provision.

No provision.	Requires SBE to establish license, certificate, or permit fee amounts that, along with any appropriations made by the General Assembly, will be enough to cover its annual estimated operating expenses, instead of just the cost of administering SBE's licensure system as under current law.	Same as the House.
No provision.	Transfers, on July 1, 2025, or as soon as possible thereafter, the cash balance of Fund 4L20 to Fund 4K90 and abolishes Fund 4L20. Requires the OBM Director to cancel any existing encumbrances against Fund 4L20 ALI 210600, Operating Expenses, and reestablish them against Fund 4K90 ALI 210602, Operating Expenses, and appropriates the reestablished encumbrance amounts.	Same as the House.
	Fiscal effect: May provide greater financial stability for SBE, as Fund 4K90 serves as a shared operating fund for many occupational licensing and regulatory boards and commissions. Fund 4K90 is supported by license fees, fines, penalties, and other assessments deposited by the boards and commission that use the fund. In addition, shifts, from the GRF to Fund 4K90, \$2.0 million each fiscal year that the Executive budget appropriated for SBE's expenses associated with RAPBACK, a continuous criminal record monitoring service for Ohio educators. No provision.	No provision.	Requires a corporation or labor organization that makes independent expenditures to report its expenditures in the same manner as other political entities by doing all of the following: - Expanding and clarifying the definition of a PCE to include any entity that makes contributions or expenditures and that is not an individual, a campaign committee, a political party, a legislative campaign fund, or a PAC. - Allowing an unincorporated business to continue to make contributions in the names of its individual partners, owners, or members, instead of classifying the entity as a PCE. - Changing the definition of an independent expenditure to include any use of funds or anything of value for that purpose, meaning that a PCE that uses its own money instead of contributions to fund an independent expenditure must report the expenditure. - Clarifying that "independent expenditure" includes expenditures concerning ballot issues, as well as expenditures concerning candidates. - Making clear that all PCEs must comply with the continuing law that requires entities that engage in political advertising to report the expenditure and to identify themselves in the advertisement as the funding source.

Requires, if state bond proceeds are being used for the major sports facility, the professional sports franchise to deposit an amount equal to 8.33% of the award into an escrow account, to be used to pay any deficits between tax revenues collected and the total bond amount, after the bonds are matured, or if the lease expires. Permits the OBM Director to transfer funds from the Ohio Major Sports Facility District Fund to the Ohio Cultural Facilities Bond Service Fund, which the bill also creates to be held as trust funds pledged to the payment of bond service charges.	No provision (see OBMCD51).
No provision.	Authorizes the legislative authority of a municipal corporation located in a county with a population greater than 1,000,000 to declare one and only one area of the municipal corporation to be a transformational major sports facility mixed-use project district, and a public purpose, for the purpose of fostering and developing a major sports facility and economic development, if certain conditions are met. Permits only one such district within the municipal corporation. Allows the legislative authority of the municipal corporation to enlarge the territory of an existing transformational major sports facility mixed-use project district.	No provision (see OBMCD51).
No provision.	Requires, on or before the first day of each January and July beginning after the designation of a transformational major sports facility mixed-use project district, the fiscal officer (i.e. city auditor or village clerk or similar official) of a legislative authority where a district has been formed to certify a list of businesses located within the district to the Tax Commissioner.	No provision (see OBMCD51).

Ohio Facilities Construction Commission	Main Operating Appropriations Bil H.B. 96	
Executive	As Passed By House	As Reported By Senate Finance
Fiscal effect: OBM estimates that up to \$161.4 million in FY 2026 and up to \$167.4 million in FY 2027 will be transferred to the Sports Facilities Construction and Sports Education Fund. However the bill does not contain an appropriation for OFCC to operate the fund or program.	Fiscal effect: Eliminates the funding in the Executive version from sports gaming tax revenue. Instead, authorizes TOS to issue and sell bonds in the amount of up to \$600 million deposited to the credit of the Cultural and Sports Facilities Building Fund (Fund 7030) to pay the costs of the Cleveland Browns major sports facility stadium project in the City of Brook Park, in Cuyahoga County (see FCCCD17). To use those bonds, the bill requires, among other things, that the projected amount of increased state tax revenues to be greater than the total debt service of the state bonds for their initial term. Administrative costs may increase for the governmental agency that owns or has an ownership interest in the major sports facility or its site to comply with certain tax reporting requirements. Tax revenue may increase for a municipal corporation transformational that has a major sports facility mixed-use project district.

FCCCD10 Portion of basic project cost supplied by district		
R.C. 3318.032	R.C. 3318.032	
Modifies the calculation of the portion of the basic project cost a school district must provide for its Classroom Facilities Assistance Program (CFAP) project from the greater of either (1) the required percentage based on its equity ranking or (2) an amount necessary to raise the school district's net bonded indebtedness to a prescribed level, to its portion being determined by only the required percentage based on its equity ranking.	Same as the Executive.	No provision.
Requires, for a district that opts to segment its classroom facilities project, its local share for the first segment to be calculated using the required percentage of the basic project, instead of the greater of either (1) the required percentage based on its equity ranking or (2) an amount necessary to raise the school district's net bonded indebtedness to a prescribed level. Requires that any future segment's portion of the basic project cost use the same share as used in the first segment.	Same as the Executive.	No provision.

Ohio Facilities Construction Commission		Main Operating Appropriations Bill H.B. 96
Executive	As Passed By House	As Reported By Senate Finance
Fiscal effect: According to OFCC, only 13 CFAP projects to date have used the required level of indebtedness method to determine their local share, so OFCC expects the elimination of the net indebtedness method will affect only a small number of school districts in the future by not penalizing them for not having debt. OFCC anticipates that when qualifying for CFAP these school districts will have a lower local share than they otherwise would have had calculated under the current method of local share determination. In turn, state shares will likely be higher for these projects.	Fiscal effect: Same as the Executive.

Reappropriates an amount equal to the available balance of ALI 230647 at the end of FY 2026 for the same purpose in FY 2027.	No provision.	
No provision.	Requires OFCC to provide facilities funding to each district for which all of the following apply: (1) the district operates at least one school building in a county with a population of more than 100,000 people and at least one school building in another county with a population of less than 50,000 people; (2) the district's classroom facilities project was deferred or lapsed; and (3) the existing building included in the project for which the district applies for funding was originally constructed prior to June 30, 1925. FCCCD5 Amendment to project agreement for maintenance levy				
Section: 287.50	Section: 287.50	Section: 287.50		
Requires OFCC to amend the project agreement between OFCC and a school district that is participating in the Accelerated Urban Initiative (AUI) if OFCC determines it is necessary to do so in order to comply with the change in maintenance levy requirements enacted by H.B. 1 of the 128th G.A.	Same as the Executive.	Same as the Executive.		
Fiscal effect: H.B. 1 of the 128th General Assembly changed the maintenance levy requirements for the six AUI districts (Akron, Cincinnati, Cleveland, Columbus, Dayton, and Toledo) to run for 23 years from the date the initial segment is undertaken, instead of extending for 23 years after the district's last segment was undertaken (the six AUI projects are broken into individual segments). For the districts that have not changed their agreements yet, the H.B. 1 change would reduce the number of years for which the districts would have to levy the required 1/2 mill property tax for maintenance. Currently, projects for Cleveland and Columbus are incomplete. Presumably, these AUI districts would use other funds to meet their building maintenance needs if the original project agreements were amended.	Fiscal effect: Same as the Executive. Beginning in FY 2028, state universities may continue to forgo revenue assuming either the percentage amount the General Assembly restrains tuition and fee increases or the average rate of inflation for the previous 36-month period is lower than they could have charged otherwise under current law.

No provision.	No provision.	Makes several changes to required application materials for TMUD certification by: (1) Modifying the plans and drawings expected in a TMUD certification application; (2) Requiring proposed project budgets, which are already required to be submitted with applications, to include an estimate of hard costs and to be organized by line item; (3) Requiring viable financial plans showing at least 51% committed funding and a strategy for obtaining any remaining funding as a new application requirement; (4) Requiring projected economic impact assessments, which are already required with applications, to project the "direct" economic impact and be prepared by an economic impact consultant with experience performing economic impact studies in Ohio and reviewed by an independent third party reviewer retained by DEV; and (5) Adding a standard to evaluate currently required evidence that a project will not be completed without the award of tax credits. Specifically, establishing that if any portion of the applicant's project has already closed on construction financing or commenced construction, excluding brownfield remediation and demolition, the applicant cannot demonstrate that the project will not be completed and is ineligible for a credit.

No provision.	No provision.	Eliminates the ability of an insurance company that contributes capital to a project to apply for a transformational mixed use development (TMUD) tax credit. No provision.	No provision.	Makes several changes to the law regarding the initial issuance, sale, or transfer of TMUD credits: (1) Eliminates a requirement that credits be sold to raise capital for a project, allowing them to be sold for any purpose; (2) Allows credits to be sold by insurance companies that invest in a TMUD, as opposed to current law which only allows TMUD property owners to sell credits; (3) Allows credits to be sold more than once; (4) Eliminates a requirement that the appropriate state agency be notified when the right to claim credits is transferred or sold; (5) Expands, for credits approved after the effective date, the taxes TMUD tax credits may be claimed against to include the financial institutions tax and the income tax and eliminates a requirement that only insurance companies may claim TMUD tax credits. Credits approved before that date can still only be claimed against taxes on foreign and domestic insurance companies; (6) Allows applications for certification as a transformational mixed use development project to identify financial institutions and other persons, apart from property owners and insurance companies, that should be awarded tax credit certificates and allows a subsequent direct award to those persons; (7) Generally gives tax credit certificate holders an additional year within which to begin claiming the credits; and (8) Requires DEV to certify information about issued TMUD tax credit certificates to the Tax Commissioner, currently information is certified only to INS.
No provision.	No provision.	Excludes projects located in a municipal corporation with a population of between 15,000 and 20,000 and that contains or is located within 2,000 feet of a NASA research facility and an airport with at least two runways that are each at least 9,000 feet from eligibility for the transformational mixed use development tax credit.

No provision.	No provision.	Excludes any economic impact existing before certification of a project as TMUD tax credit eligible from inclusion in the required projection of increased economic impact.
	Fiscal effect: The provision reduces domestic and foreign insurance tax revenues up to \$100 million per year, depending on the amount of TMUD tax credits awarder after FY 2025.
