Legal Basis: ORC 3706.19; Section 213.10 of H.B. 110 of the 134th G.A.

Purpose: This line item supports the operating costs of the Office of Ombudsman, commonly referred to as the Clean Air Resource Center. The Center informs small businesses about requirements of Clean Air Act regulations at the state and federal levels, provides technical advice on compliance, and offers financing guidance and assistance to small businesses wishing to install technologies that reduce emissions. Before FY 2018, line item 898608, Energy Strategy Development, provided supplemental funding for the Center's operating costs.

Legal Basis: ORC 3706.03; Section 213.10 of H.B. 110 of the 134th G.A.

Purpose: This line item provides funding for the administrative costs of the Authority's air quality financing assistance programs. The Authority assists large scale manufacturing and public utility companies by offering low-cost financing alternatives for investment in pollution control and prevention measures. The Authority also provides assistance through the Qualified Energy Conservation Bonds, which help public entities, such as local governments or universities, to install heating and lighting systems to conserve energy. It is possible that some funding for administration of payments from the Solar Generation Fund established by H.B. 6 of the 133rd G.A. might come from this line item, but up to \$300,000 of funding per year for that purpose comes from that custodial fund, and is not subject to appropriation under this (or any) line item.

Source: Dedicated Purpose Fund Group: Title V permit fees administered by the Ohio Environmental Protection Agency

Legal Basis: ORC 3706.19; Section 213.10 of H.B. 110 of the 134th G.A.

Purpose: This line item provides grants to small businesses to purchase clean air equipment. To qualify, the business must have 100 or fewer employees and comply with the federal Clean Air Act requirements. Once a small business moves forward with a project, the grant awards can either be used to (1) cover closing costs, or (2) support principal payments on equipment after the equipment has been installed and operational for at least six months. Grants may support up to 20% of the total project cost, but are capped at \$20,000 per project.
