

# GRF's share of Medicaid spending falls below 50% in FY 2022

Medicaid Expenditures by Fund Group, FY 2013 to FY 2022

Source: Ohio Administrative Knowledge System

- GRF has historically been the largest source of Medicaid funds. However, in FY 2022, non-GRF made up a larger portion due primarily to COVID provider relief payments.
- Non-GRF – State has increased in recent years, partially due to increases in provider franchise fees and assessments.
- Non-GRF – Federal consists of federal reimbursements for expenditures made with non-GRF – State funds.
