

Managed care comprises 87% of Ohio Medicaid cases

Ohio Medicaid Enrollees
Managed Care vs. FFS in 2020

Source: Department of Medicaid

Share of Medicaid Population Covered Under Managed Care in 2020

State	Rank	Managed Care (%)
Pennsylvania	9	95.2%
Kentucky	12	94.3%
Michigan	13	93.8%
OHIO	26	86.6%
National Average	--	83.9%
West Virginia	34	80.4%
Indiana	40	75.1%

- Medicaid enrollees receive services through fee-for-service (FFS) providers or managed care organizations (MCOs). Under FFS, Medicaid pays providers a set fee for the service rendered. Managed care is a capitated at-risk plan in which MCOs are paid a fixed monthly premium per enrollee for any health care included in the benefit package, regardless of the amount of services actually used.
