

# Sales and income taxes lead state-source GRF and lottery profits receipts

State-Source Receipts by Category, FY 2022

Total: \$31.15 billion

Source: Ohio Administrative Knowledge System

- Receipts from the sales tax (\$13.28 billion) and the income tax (\$11.23 billion) accounted for 78.7% of state-source receipts of \$31.15 billion in FY 2022.
- Business taxes totaled \$3.61 billion, including \$2.00 billion from the commercial activity tax.
- All other receipts adding up to \$1.62 billion primarily include the cigarette tax (\$884.6 million), but also various other tax and nontax sources.
- Lottery profits, \$1.41 billion in FY 2022, are used to help fund state education aid for schools.
- State-source GRF and lottery profits receipts increased 7.1% in FY 2022, after rising 16.6% in FY 2021. Responses to the COVID-19 pandemic in 2020 included an extension of the deadline to file income taxes until July 2020, which transferred a large amount of receipts from FY 2020 to FY 2021.
