Agency Abbreviation Guide

In budget bills, each agency is identified by a three-letter accounting code. Many LSC products use this code to identify an agency, including Redbooks, the Comparison Document, and the Appropriation Spreadsheet. Some agencies are also identified by acronyms or other abbreviations. LSC may use these when referring to an agency in the text of one of our documents. Please use the following table as a reference for agency codes and other abbreviations.

Accounting Code	Agency Name	Other Abbreviation
