

# Developmental Disabilities spending on Medicaid home and community-based services continues climb

Medicaid Institution & Waiver Spending (inflation-adjusted \$ in millions), FY 2015-FY 2024

Source: Ohio Administrative Knowledge System

- Medicaid expenditures for home and community-based services (HCBS) for individuals with developmental disabilities increased 70% in the past ten years.
- The Ohio Department of Developmental Disabilities (DODD) administers three HCBS waiver programs that enable individuals with developmental disabilities to remain in their homes or community settings. These programs provide services to increase skills, competencies, and self-reliance to maximize quality of life while ensuring health and safety.
- Institutional spending has been relatively constant.
- Institutional services are provided at eight regional developmental centers (DCs) operated by DODD and at more than 400 intermediate care facilities for individuals with intellectual disabilities (ICFs/IID). Both DCs and ICFs/IID provide health care and habilitative services in a residential setting.
