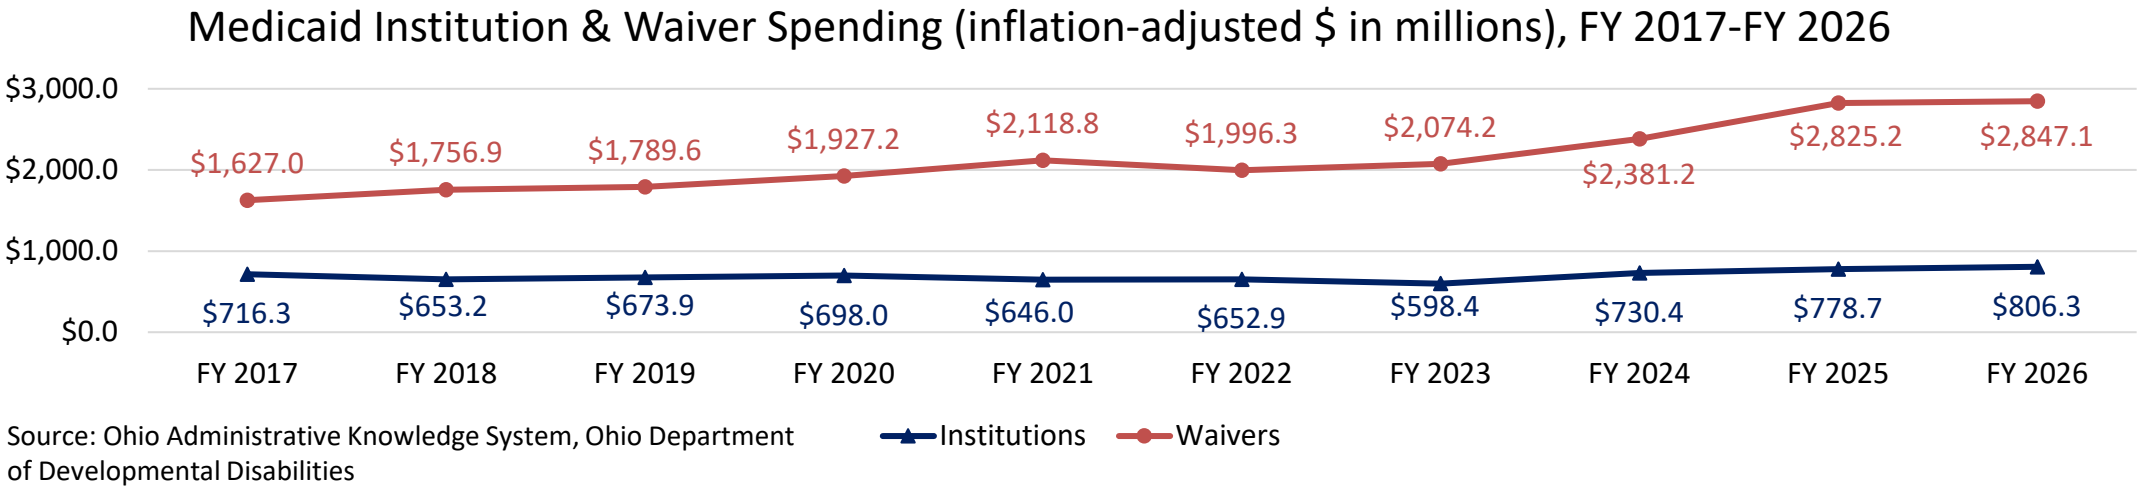
Developmental Disabilities spending on Medicaid home- and community-based services (HCBS) continues climb



Source: Ohio Administrative Knowledge System, Ohio Department of Developmental Disabilities

- Real Medicaid expenditures for HCBS for individuals with developmental disabilities increased 75% in the past ten years.
- The Ohio Department of Developmental Disabilities (DODD) administers three HCBS waiver programs that enable individuals with developmental disabilities to remain in their homes or community settings. These programs provide services to increase skills, competencies, and self-reliance to maximize quality of life while ensuring health and safety.
- Real institutional spending has increased 12.6% in the past ten years.
- Institutional services are provided at eight regional developmental centers (DCs) operated by DODD and at more than 400 intermediate care facilities for individuals with intellectual disabilities (ICFs/IID). Both DCs and ICFs/IID provide health care and habilitative services in a residential setting.
