

Ohio Landfills Received 22.0 Million Tons of Waste in 2023

Waste Received at Ohio Landfills by Type, 2014-2023

Source: Ohio Environmental Protection Agency

- Ohio landfills received 21,950,496 tons of waste in 2023, a reduction of 5.3 tons or 19.4% from 2022, and 1.1 tons or 4.7% below the ten-year average of 23.0 tons (as measured from 2014 to 2023).
- In 2023, total waste disposed included:
 - Municipal solid waste (residential and commercial): 13.2 million tons (60.0%)
 - Construction and Demolition Debris (C&DD): 5.1 million tons (23.3%)
 - Industrial solid waste: 3.2 million tons (14.8%)
 - Excluded waste: nearly 440,000 tons (2.0%)
- Excluded waste includes materials that are authorized for disposal at a solid waste landfill and excluded from the definition of solid waste such as earth, fly ash, slag, and other substances not harmful to public health.
- As of July 2024, there are 47 landfills in Ohio: 37 municipal, 5 industrial, and 5 residual (a subset of industrial).
