

Preschool and School-Age Child Care Licensing Report

July 1, 2019 - June 30, 2020

INTRODUCTION

As outlined in *Each Child, Our Future*, Ohio's strategic plan for education, children must have access to quality early learning experiences. As such, the Ohio Department of Education provides consultation and technical assistance to Department-licensed preschool and child care programs to ensure their programs and facilities meet minimum standards prescribed in law. The Department's Preschool and School-Age Child Care Licensing Report includes the number of inspections conducted, number and types of violations found, and steps taken to address the violations.¹

CORRECTIVE ACTION

When a program is not in compliance with applicable laws and rules, the Department places the licensee on a corrective action plan that outlines the violation and actions needed to address the violation(s). The program receives notification of any noncompliance that requires corrective action. The program then must respond with a corrective action plan that addresses the following:

- What short-term or immediate action has been taken to correct the area of noncompliance?
- Please explain the planned changes to the system(s) or procedure(s) to prevent this noncompliance in the future?
- Who will be responsible for the ongoing implementation of the planned changes to the system(s) or procedure(s) to continue to prevent this noncompliance?

Licensing specialists verify corrective action plans have been implemented during each program's next unscheduled licensing compliance visit.
