Measuring the Performance of Educator Preparation Programs

Ohio recognizes that high-quality teachers come from high-quality teacher preparation programs. To help improve the quality of educator preparation programs in Ohio, H.B. 1 of the 128th General Assembly directed the Chancellor of the Ohio Department of Higher Education to develop a system for evaluating Ohio's educator preparation programs ([ORC section 3333.048](#)).

Teacher Evaluations and Student Growth Measures Data for 2019-2020

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data. Specific language within House Bill 197 regarding these data limitations for the 2019-2020 school year is as follows:

SECTION 17. Notwithstanding anything in the Revised Code or Administrative Code to the contrary, for the 2019-2020 school year only, except as otherwise provided in this section, due to the Director of Health's order under section 3701.13 of the Revised Code "In re: Order the Closure of All K-12 Schools in the State of Ohio" issued on March 14, 2020, or any local board of health order, and any extension of any order, based on the implications of COVID-19, all of the following apply:

(E) For the purpose of teacher evaluations conducted under sections 3319.111 and 3319.112 of the Revised Code, no school district board of education shall use value-added progress dimension data, established under section 3302.021 of the Revised Code, from the 2019-2020 school year to measure student learning attributable to the teacher being evaluated.

(M) Notwithstanding anything in the Revised Code to the contrary, the board of education of any school district that, prior to the Director of Health's order under section 3701.13 of the Revised Code "In re: Order the Closure of All K-12 Schools in the State of Ohio" issued on March 14, 2020, had not completed an evaluation that was required under Chapter 3319. of the Revised Code for the 2019-2020 school year for an employee of the district, including a teacher, administrator, or superintendent, may elect not to conduct an evaluation of the employee for that school year, if the district board determines that it would be impossible or impracticable to do so. If a district board elects not to evaluate an employee for the 2019-2020 school year, the employee shall be considered not to have had evaluation procedures complied with pursuant to section 3319.111 of the Revised Code for purposes of section 3319.11 of the Revised Code. The district board may collaborate with any bargaining organization representing employees of the district in determining whether to complete evaluations for the 2019-2020 school year. Nothing in this section shall preclude a district board from using an evaluation completed prior to the Director of Health's order in employment decisions.

Components of Educator Preparation Metrics Reports

The Ohio Department of Higher Education works with the Ohio Department of Education and higher education institutions to collect data on the following identified metrics for the annual reports:

2020 Ohio Educator Preparation Provider Performance Report Statewide Report

Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Ohio Principal Evaluation System (OPES) Results for Individuals Completing Principal Preparation Programs

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.

Field and Clinical Experiences for Candidates

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Educator Preparation Providers)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs	
Field/Clinical Experience Element	Statewide Data
Statewide average minimum number of field/clinical hours required of candidates in the School of Education	125.90
Statewide average maximum number of field/clinical hours required of candidates in the School of Education	301.27
Statewide median number of hours required in student teaching experience	490.00
Statewide average number of weeks required in student teaching experience	14.25
Percentage of candidates satisfactorily completing their student teaching experience	98%

Principal Preparation Programs	
Field/Clinical Experience Element	Statewide Data
Statewide average (mean) number of weeks in internship	27.25
Number of candidates who started internship	914
Number of candidates who completed internship	869
Percentage of candidates who satisfactorily completed internship	95%

Ohio Educator Licensure Examination Pass Rates

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one-year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2019-2020.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

Prepared by Ohio Educator Preparation Providers

Reporting Period from Sept 1, 2019 to Aug 31, 2020
 (Data Source: Ohio Department of Education Approved
 Vendors within SAS® EVAAS® Value-Added Models)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Candidate Academic Measures

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Educator Preparation Providers; Statewide
Weighted Means Calculated by Ohio Department of Higher Education)

Description of Data:

The data in this section are the average scores of candidates on academic measures reported by the provider. If a measure is not applicable to a level of delivery (undergraduate, post-baccalaureate, graduate) the table reflects "N/A." In the "Dispositional Assessments and Other Measures" portion, if the provider did not indicate using a measure, OR if the institution does not offer a program at the designated level of delivery, the table reflects "N."

Candidates Admitted is the number admitted (for fall or spring) during the academic year.

Candidates Enrolled is the total number of candidates admitted and enrolled (including program completers) during the academic year.

Candidates Completing is the number meeting all the requirements of a state-approved teacher preparation program during the academic year.

2020 Ohio Educator Preparation Provider Performance Report Statewide Report

Pre-Service Teacher Survey Results

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 2,903 respondents completed the survey statewide for a response rate of 68 percent.

2020 Ohio Educator Preparation Provider Performance Report Statewide Report

Teacher Residency Program

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Education)

Description of Data:

The Resident Educator Program in Ohio encompasses a robust four-year teacher development system. The data below show the persistence of Ohio Educator Preparation Provider graduates through the program.

Data from this table capture a year-to-year snapshot of the persistence of Ohio Educator Preparation Provider graduates through the program. Corrections to prior year reporting may be captured in the current year's reporting. Data used to create this "snapshot" table are sourced not only from the current year's resident educator completion data results, but also prior year results because a Resident Educator may fail to complete all the program year requirements within the same academic year.

Some of the scenarios addressed in the design of the table are as follows:

1. A normal scenario, where a student is reported each year and is listed as completed. In this case, we include them in only the Entering/Persisting counts for the current year.
2. A scenario where a student is reported as entering one year, but not as completed, but then reported the following year as completing the previous year and current year. In this case, we include them in the Persisting count for the previous year, but not the Entering count. We also include them in the Entering and Persisting counts for the current year.
3. A scenario where a student is not reported one year, but reported with records for the previous year and the current year the following year (both as completed). In this scenario, we include them in both the Entering and Persisting counts for both years.
4. A scenario involving a registration fluke where a student completes Year 1 of the RE program with an issued RE license, but not an effective or valid license until the following school year. For example, a teacher has all the qualifications for a full license, but completed Year 1 under a sub license (in which the work is counted) and Year 2 under a RE license.
